Whether accompanied by that terrible sensibility of the parts affected, common in the inflammatory phase—by the muscular contractions which so often render the victim of Chronic Rheumatism a helpless crippic, or by the crachanging symptoms which are cometimes the characteristics of this Protean complaint.
Unlike the "Sangrado" practice of bleading and purging, which some suplent medicos consider the legitinate mode of treating Inheumatism, these Pills systain and cherish the animal forces, invigorate the constitution, and thus act as the alies of Nature in her efforts ulton, and thus act as the alies of Nature in her efforts to cast off the disease. Their medical action is direct and specific. It reaches the complications of nerves and direct and specific. It reaches the complications of nerves and fire in which it is entrenched, and spreads, and intensifies, while it spreads the fatal tendencies of the malady.

WOOD. Dear Bir.—As you are alout to manufacture extensively and rend your recently discovered Hair Restorative, I will state, for whomsower it may concern that I have used it, for whomsower it may concern that I have used it, and known others used it; that I have for several years been in the habit of using other Hair Restoratives, and that I find yours restly superior to any other I know. It entirely cleanese the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, roft, and glossy appearance, and all this without discolaring the hands that apply it, or the dress: n which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair.

Respectfully yours, Wilson Kivo.

WORMS even in Adults.

THE Administration of B. A. PAHNESTOCK'S VERMIFUGE has always been characterized with success, always producing in the feelings a marked change for the better. Any one who tries it can safely confide in it, and the most delicate infant cannot be injured by its use. Adults, too, are frequently subject to worms in the rectum and small intestines, which always impair the health.
