Unlike the "Fangrado" practice of bleeding and purging, which some sepient medicos consider the legitimate mode of treating Rheumatism, these Pills systain and cherich the animal forces, invigorate the constitution, and thus act as the allies of Nature in her efforts to east off the disease. Their medical action is direct and specific. It reaches the materies maxib or radia of the disorter, through all the complications of norres and fibres in which it is entrenched, and expests from the blood the febrile principle which feeds, and spreads, and intensifies, while it spreads the fatal tendencies of the malady.
