It is particularly scapies to peace of the old method; not requise one-fourth the time or labor of the old method; and I have no doubt, when its properties become generally known, but that it will entirely upersade the former tedious and haborious custom.

I most obserfully recommend it to all persons engaged in the Cabinet business, as from my knowledge of it, there is nothing as well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.

Prof. Wood's Hair Restorative. No article of a similar kind, now before the public njoys a better reputation as a restorative and invigora ting bair tonic. Its peculiar chemical qualities have a oneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formery of a coarse and dry nature. It has also a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With adjunct to the tollet. Persons who have used it from the age of sixty-four down, declare it to be the most perfect article to secure the object intended over yet produced. Gray

recable effects of dryness, the accumulation of dandruff or like impurities, are removed. From the Editor of the Real Estate Advertiser, 27 Schools Borron, March 20, 1854. Prop. Wood: Dear Sir—Having become prematurely quite gray, I was induced some six weeks since, to make trisl of your Hair Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and all though my hair has not fully attained its original color.

unougn my nar nas not fully attained its original color, yet the process of change is gradually geing on, and I have great hopes that, in a short time, my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry, and it has ceased to come out as formerly.

Respectfully Yours, D. C. M. Rupp. Paor. Wood: Dear Sir.—My hair commenced falling of some three or four pears since, and continued to do so until St. Louis, March 7th, 1854. CARTLE, Ill., June 27th, 1853.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, premeturely gray, but by the use of his Restorative, it has resumed its original color, and, I have no doubt permanently so.

SYDNEY BREESE, Ex-Senator, United States. Vincennes, Indiane, June 15th, 1853.
Prof. O. J. Wood: Dear Sir—As you are a out to manuacture extensively and vend your recently discovered Hair Restorative, I will state, for whomsover it may concern, that I have used it, and known others use it; that I have or several years been in the habit of ucling other Hair Restoratives, and that I find yours varify superior to any other I know. It entirely cleanese the head of dandruf, and with one monthly prepare we will restore any person's but I Know. It only the Cleanses the head of dandrul, and with one month's proper use will restore any person's halt to the original youthful color and texture, giving it shealthy, roft, and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it draps. I would, therefore, recommend its use to every one desirons of having a fine color and texture to bair.

Respectfully yours, Wilson King.
