THE CITY POST. MONDAY MORNING ..... MARCH 26. BACK NUMBERS WANTED.—The following back numbers from our files of the Saturday Morning Post, are missing: July 80th, 1853; January 14th, 1854; February 4th and 25th, 1854; March 11th, 1854; April 29th, '64; July 22d, '54; August 19th, '54; September 16th and 30th, '64; and October 14th, '54. Any of our subscribers who may have all or any one of the above numbers in their posses-Bion will confer a particular favor by forwarding them to our counting room. Ten cents will be paid for each. day of March, 1854, Andrew Fleming was elected judge of the election district, within said borough, and that Andrew Jackson and Wilson Stewart were elected inspectors; that at the general election held in October, 1854, An drew King presided over and conducted the election, and that Jesse M. Lutten and Michael O'Neil were substituted, according to law, in the place of Andrew Jackson and Wilson Stewart, both of whom were absent: that Andrew Fleming, at the recent election held in the borough, went to the place appointed for holding the election, for the purpose of attending to his duties as judge, when Wilson Stewart, who was not assessed, nor a resident of the said borough, forcibly took his seat, although Mr. O'Neil, who had been appointed to fill a vacancy, and entitled to act for the whole year, was present, ready to perform the duties imposed upon him by law; that David Crowe, the assess or elected in March, 1854, informed Andrew Fleming that Wilson Stewart was not as sessed, and was not on the list of taxable in habitants for 1855, and that he was not a resi dent of said borough; that Andrew Fleming re quired Stewart to be qualified as to his residence and after some time they returned and stated that Stewart had been sworn; that Fleming expressed himself much disentisfied with this proceeding, but was overruled by force, and Stewart accordingly took his seat as an inspector.

The petition further represented that Jackson was a candidate for two offices voted for at the said election: borough council and school director; that abusive language was used towards David Crowe, the assersor, with the intention of driving him from his post at the election; that persons were brought by Stewart and his confederates from the cities of Pittsburgh and Allegheny to awe the citizens of the borough and to support Stewart in his unlawful acts; that a sufficient number of votes were illegally polled, which, together with those that were rejected unlawfully by the inspectors, would have changed the result; that Andrew Flemtog refused to sign the return which is required by law to be made to the court. The petition was signed by twenty citizens of the borough.

PROF. O. J. WOOD: Dear Sir—As you are about to mnound the true extensively and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it, and known others use it; that I have for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanes the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, ecft, and glossy appearance, and all this without discoloring the hands that apply it, or the dress in which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair.

Respectfully yours,

A & C. HOEVELER offer for sule, on accommodating terms, the bore valuable Fertilizers, which they manufacture at the law, extensive establishment, situated in East Liberty, near flusburgh, Pa. Bonedust, as a manure has been used for many years in Europe with the greatest success; next to gunon; it is superior to any other in use. Tenor fifteen bushels pure Bonedust per acre will so monrish the land that its good effects will be realized from the first year to en or fifteen years after, whereas the good effects of guano see whousted in one, year. Those who have used Bonedust speak in the highest terms of the benefits derived from it. It is suited to verry variety of soil, and all crops are benefitted by it—vines and trees more particularly. The patent American Fortilizer possesses essential properties necessary to stimulate the growth of plants and green vegetables, and destroys insects. As a manure, for gardening, it cannot be excelled. Directions farnished. Agran. For Pittesons.
