THE St. Louis Democrat. of 26th inst., says: The St. Louis Democrat, of 26th inst., says:
The river at this point fell about a foot in the 48 hours, ending yesterday evening at dusk; and the Ke kuk, is reported slowly on the decdue. The Hilmosis is on a stard, with plenty of water for the largest class of boats heavily laden. The Missouri has rather a small stage of water at present, but an immediate rise is expected in that stream by many who have been conversant with its nature for years. There were few arrivals at this port yesterday, only half a dozen.

Vincenness, Indiana, June 15th, 1853.

Prop. O. J. Wood: Dear Sir—As you are as dout to manufacture extensively and vend your recently discovered Hair Restorative, I will state, for whomsever it may concern, that I have used it, and known others use it; that I have for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, roft, and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to bair.

Respectfully yours,

WOOD & C.D., Propietors, 605 Broad THE St Louis Intelligencer makes the following explanalosure them against an evil from which they have greatly suffered heretofore—namely, the undermining competition of outsiders; and while they have thus secured themselves, they have been compelled to hitch to the other horn of a formidable dilemma. The plan of operations was to monopolize the services of all the Missouri river pilots, and this has been done on terms, as one would readily imagine, exceedingly advantageous to the pilots—being no less than an engagement to pay them \$200 per month for eight months of the year, whether in or out of employment, and they agreeing not to ship on any boat making translent trips. This is a pretty heavy tax, all things considered, but it will no doubt be found no less injurious than would be the transitutings of outsiders, which will take freight at less rates doubt be found no less injurious than would be the transient trips of outsiders, which will take freight at less rates than the regular packets. The Missouri river trade is just now exceedingly profitable, the rates bring, for passage to 84. Joseph, \$15; freight, \$1,25 \(\frac{1}{2} \) 100 bs. If a half-dozen Ohio river boats could just make a few trips, these prices would go down in a hurry. Some of the upper Ohio river boatmen, who came around with whalling trips of emigrants and their plunder for Kansas, were somewhat astonished, and not a little vexed, to find that they had to resting their passagners and freight, and look for business in other direct passengers and freight, and look for business in other dir dons. If the pilots could have been had, these boats wo have been willing to pay an enormous price for their ser ses; but they could'nt be got for "love nor money."

RHEUMATIC PILLS.

For the Safe, Omplete and Speedy Cure of Inflammatory, Chronic, Heredilary and Mercurial Rheumatism, Rheu-matic Gout, Lumbago, Sciatica, and other Diseases affecting the Muscular System.

SUCH AN ARRAY OF TESTIMONY as Dr. Covet's

REBURATE PILLS have called forth from all classes, was
lever voluntarily offered in favor of any other Medicine.

The cases of cure comprehend

EVERY STAGE OF RHEUMATISM,

Whather accompand by that terrible sensibility of the the Muscular System. The cases of cure comprehend

EVENTY STAGE OF IRHEURIATISM,

Whether accompanied by that terrible sensibility of the parts affected, common in the inflammatory phase—by the muscular contractions which so often render the victim of Chronic Rheumatim a halplass crippie, or by the everchanging symptoms which are sometimes the characteristics of this Proteas complaint.

Unlike the "Sangrado" practice of bleeding and purging, which some saplent medicos consider the legitimate mode of treating Rheumatism, these Pills systain and cherish the animal forces, invigorate the constitution, and thus act as the allies of Nature in her efforts to cast off the disease. Their medical action is direct and specific. It reaches the maderics moghlo or radio of the disorder, through all the complications of nerves and fibres in which it is entrenched, and expest from the blood the febrile principle which feeds, and spreads, and intonsifies, while it spreads the fatal tendencies of the mindot.
