But, to the professions mediums we cannot give a good character. They either have not brains enough to make a good guess, or their dealings are altogether with false and lying spirits. If they seek employment among other journals, as mediums of intelligence, to supply news in advance of the telegraph, we beg they will not apply to us for "a character." We should be obliged to insert a clause that they

It is to be regretted that our effort to prove the substantiality and the accuracy of the fashionable spiritual revelations has proved so complote a failure. We were quite ready to reward he medium who should report the circumstances with absolute correctness, and had been calculating how many hundred dollars a week we should give to secure permanently the services of euch a "happy medium." CARD. A FEW days since, I published an advertisement of my A hanguag Playos, in which an extract from a letter from Prof. H. Robbock, of this city, addressed to Messrs. Baumgarten & Heins, of Hamburg, the manufacturers, was in-orted. This morning I observed in reveral of the dally papers a "Netic," signed by Prof. R., in which he states that I was unauthorized to make use of it, and that it was incorrectly stated and applied.

In reply—I presumed that if he had written the letter, in reply—I presumed that it he had written the determine the letter. be, of course, meant what was th sequently required no authority from him to make the same public. As regard the assertion as to its incorrectness, I have the letter in my possession, and it speaks for itself, word for word as I have published. Messrs. Baumgarten & Heins are not dependant upon Mr. Robbock for endosement—their Pisuos were known, appleciated and relived the highest rommendations from the first artists, long before Prof. R. saw fit to pass an optation upon them. My reason for publishing the extract was in the fact that he was well known in the city, and not be ause his recommendation was necessary to establish the merit of the Pianes. In conclusion, I may add that they stand on their own merit, and are endorsed by such men as List, Thalberg, and others, solely on account of their metit.
