HOPPER'S PATENT PLANE

It is particularly adapted to planing veneers, and it does not require one fourth that time or labor of the old method; and I have no doubt, when its properties become generally known, but that it will entirely apersede the former tedious and laborious coastom.

I most cheerfully recommend it to all persons engaged in the Cabinet business, as from my knowledge of it, there is nothing as well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.

A FEW days eline, I published an advertisement of my lianucino Plasos, in which an extract from a letter from Prof. II Robbock, of this city, addressed to Messra. Baumgarten & Helius, of Hamburg, the manufacturers, was inverted. This marning I observed in several of the daily papers a "Notic," signed by Prof. R., in which he states that I was unauthorized to make use of it, and that it was incorrectly stated and applied.

In reply—I presumed that if he had written the lotter, he, of course, meant what was therein centained, and consequently required no authority from him to make the same public. As regards the assertion as to its incorrectures, I have the letter in my possession, and it speaks for itself, word for word as I have published. Messra Baumgarten & Heins are not dependant upon Mr. Robbock freendorsement—their Piauce were known, appeciated and reduced the highest rommendations from the first artiste, long before Prof. R. saw fit to pass an ophicion upon them. of the manner of the results of the Alexander W. DAILY MORNING POST. SATURDAY MORNING.....APRIL 14 New Developments in Ghostology. AN ENORMOUS STORY. Spirits Talking Aloud and Baking Slapjacks!

HARTYORD, Trumbull Co., Ohio, January 8, 1855. S. W. Smith, Esq.—Dear Sir : The facts given 8. W. SMITH, ESQ.—Dear Sir. I no took given in the enclosed affidavit of John Richardson are of public notoriety here, and can no doubt be sustained by any amount of evidence. You are at liberty to make any use of the affidavits you choose. Respectfully, W. W. J. BRIGHT.

[From the Spiritual Universe.]

The State of Ohio, Trumbull County, ss.—Before me, William J. Bright, Justice of the Peace in and for the county aforesaid, personally come John Richardson, who, being duly sworn, deposes as follows: I am a resident of Rymanu-ning township, Mercer county, Pa.; live four miles east of the centre of Hartford, Ohio; have lived where I now reside some nine months About five weeks ago my attention was arrested by a very sharp and loud whistle, seemingly in a small closet in one corner of my house. This was followed by load and distinct raps, as loud as a person could conveniently rap with the knuckles. The closet door is secured or fastened by a wood button that turns over the edge of the door. This button would frequently turn; and the door open without any visible agency. This was followed by a loud and distinct (apparently) human voice, which could be heard, perbane,

fifty rods. After repeating a very loud and shrill scream several times, the voice fell to a lower key, and in a tone about as loud as ordinary conversation; commenced speaking in a plain and diatinct manner, assuring the family that we would not be burned, and requesting us to have no cient to employ 200 nands, which is a guarantee that the work is all done under my own immediate inspection.

23 The Packing is all done in the Store, and Furniture arranted to carry safely any distance. Visiters to Phila warranted to carry safely any distance. Visiters to Phila warranted to carry safely any distance. Visiters to Phila warranted to carry safely any distance. Visiters to Phila warranted to carry safely any distance. Visiters to Phila warranted to carry safely any distance. These manifestations being altogether unaccountable to myself and family, we scarched the entire house, to find, if possible, the cause the entire house, to find, if possible, the cause of this new and startling phenomenon, but found no one in or about the premises but the family. Again we were startled by a repetition

without human hands, taken from the table, caring round from its position at the side of the room, and carried forward to the stove, a distance of more than gix feet. This was done while there was no person near it. The same without human agency, and often been made to dance about while the family were eating around

On another occasion the voice requested Mrs. commenced rocking violently back and forward, and continued the motion, so that the dishes ould not be washed upon it, but were placed in umber of them flew from the tub to the chamer floor, overhead, and were thus broken to pieces. What crockery remained we attempted and the dishes flew like lightning, one after anoner, against the opposite side, and broke to pieces. At another time a drawer in the table as, while there was no person near, drawn

out, and a plate that had been placed there carried across the room and broken against the opposite walf. And this kind of demonstration has continued until nearly all the crockery about the house has been broken and destroyed. At different times the drawers of a stand sitting in a bed room, have been taken out, and at one time carefully placed on a bed. A large stove boiler has been, while on the stove, filled with water, tipped up, and caused to stand on one end; and the water was turned our upon the floor, and at this time taken off from the stove, and carried some six feet, and set down upon the floor, and this while untouched by any per-son. A tea kettle has often been taken from the son. A ten kettle has often been taken from the stove in the same manner, and thrown upon the floor. At one time a spider, containing some coffee for the purpose of browning, was taken from the stove, carried near the chamber floor, ly, while Mrs. Richardson has been baking buckwheat cakes on the stove, the griddle has, in the same unaccountable manner, been taken from

At one time the voice, speaking to my wite, said it (the spirit) could bake cakes for George, a boy eating at the table. Mrs. Richardson stepped away from the stove, when the batter (already prepared for baking cakes) was by some unseen agency taken from a crock sitting near the stove, and placed upon the griddle, and turned at the proper time, and when done, taken from the griddle, and placed upon the boy's plate, at the table. The voice then proposed to bake a cake for Jano, my daughter, who was bake a cake for Jane, my daughter, who was accordingly baked in the same manner as before stated, and carried across the room, and placed the girl's hand. During all these occurrences, the talking from the two voices and others has continued, and

still continues daily, together with such manifestations as I have detailed, with many others not named. The conversation, as well as the other demonstrations, have been witnessed almost daily by myself and family, as well as by scores of persons who have visited my house to witness these strange phenomens.

I will only add, that the spirit (the voice) gave as a reason for breaking crockery and destroy-ing property, that it is done to convince the world of the existence of spirit presence. Sworn to and subscribed before me, this 8th day of January, 1855.
WM. J. BRIGHT, Justice of the Peace.

Eliza Jane Richardson, being duly sworn, made the above affidavit. I have witnessed all the manifestations given by my husband in h's the voices, and writing without human agency. ELIZA JANE RICHARDSON.
