We took occasion the other day to notice this valuable compound in the above terms, and now reput lists what was then raid, to show "guin our farorable opinion of it."

The foregoing is taken from the Petersburg (Virginia) Intiligence, and refers to an article which has for a time been advertised in our columns. We must confess that we have been somewhat receptical as to the remarkable effects attributed to this famous "Half Restorer." But our incredulity has been greatly shaken within a day or two by seeing a couple of certificates of well known and perfectly credible citizens of the neighboring town of Preston—of them the Captain of a New London whaling ship—to the effect that, in each of these cases, a two or three months' use of the "Restorer" had actually brought out a new and algorous growth of hair upon the head where it was before bald—the baldness being, in one case, of more than twenty years standing. We do not suppess it is by any means certain that, because the application has been thus successful in one case, or two, or a dezen, it is therefore cretain to prove equally successful in all. But with such head-strong evidence as the foregoing, very few bald heads, we suspect, would willingly forego a fair trial of the "Restorer." All such "old heads" are infarmed that the article can be had at Messrs, Lee 4 Orgocol's —Xernin & Evening Courier.
