Removal. article, that anything like a general confidence can be excited.

The unrivalled excellence of this combination of agents, (in the CHERET PECTRAL) proved beyond cavil by repeated trial under their own observation, has compelled medical men to proclaim abroad its usefulness. It is beyond all doubt the best general remedy we have for the Pulmonary Affections of this climate, at the same time sedative and expectorant—a rare combination of properties.

In the hope that it will prove its own reward, I subscribe myself. Respectfully your obseldent servant.
