THE WEATHER TABLE FOR JUNE!—Having been so successful in our "Weather Table for May," as published in the Post some weeks ago, we now guess again. June 7th, cold and frequent showers; 19th, fair if wind be N. W., rainy if S. or S. W.—but, as we said before, these are only guesses; but facts say that the Herpetic Scap removes tan, sallow mess, reduces and roughness of the skin—that it heats sore rough hands, and that it is sold at 12½ cents per cake, at No. 140 Third street.

So sure as water will extingaish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial, it always speaks for itself. There are two things about this herb that appear to me surprising: first, that it grows in our pastures, in some places quite plentful, and yet its value has never been known until I discevered it in 1846—second, that it should cure all kinds of

umor. In order to give some idea of the sudden rise and great In order to give some ergy, Liwill state that in Apri peddled it and sold about six bottles per day—if 854, I sold over one thousand bottles per day of it In my own practice I always kept it strictly for humors ut since its introduction as a general family medicine but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

I know of reversal cases of Dropsy, all of them aged peo-le, ured by it. For the various diseases of the Liver, Sick Headache, Dyspepsis, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than my medicine ever known.
