They should be freely taken in the spring of the year, to purity the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and wigor. They purity the blood, and, by their stimulant ac-tion on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advanta-geous, even though no serious derangement exists; but un-necessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. Pirisucan STAM CANNER FACTOR, We hereby certify, that during the last twelve months we have used Hopper's At. ut Piane, and do not hesitate to recommend it to Cabinet-Makers and Carp neura as up perior to any other Fiane in us. We consider it peculiarly adapted to planing oak, cherry, walnut, and all sorts of hard wood, and for planing veners, it s far superior to the old mode of scraping, besides being a great saving of time. One man, by using this Plane, will plane mote veneers than five men can do by any other plane or method in use. It. H. Bran & Co. In the. In the. In the line of the line It is particularly daapted to planing veneers, and it does not require one-fourth the time or labor of the old method; and I have no doubt, when its properties become generally known, but that it will entirely . upersede the former te-dious and laborious costom. I most cheerfully recommend it to all persons engaged in the Cabinet business, as from my knowledge of it, there is nothing as well fitted to give a smooth and beautiful finish to veneers as the Hopper Patent Bench Plane.
