SETTLERS FOR KANSAS Various stratagems have been resorted to this s cason to discourage emigration from the northern states to Kansas. We were first told that the cholera prevailed in that territory to an alarming extent, and that it had proved unusually fatal to emigrants just arrived from the east. This was likely, and plainly designed, to keep back the tide of migration from the north. Yet after weeks of waiting we find no confirmation of the reports in regard to the cholera. Some cases have occurred there as well as elsewhere,

but it has not assumed a dangerous form. We were next told that there was a scarcity of food in Kansas, and great danger of starvation before harvest. Yet food is dearer in New York than in Kansas to-day. Steamers plying he found in any other part of the United States.
