THE CITY POST THURSDAY MORNINGJUNE ARREST OF AN INCENDIARY-A CONFESSION OF THE CRIME. Our readers will recollect fire which occurred in Hardscrable, a couple tof fire to the stable. I fired the hay with a match. was laboring under a kind of a crazy spell at the time. I am aware that this statement can be used against me, and make it of my own free After the above was written down and signed by the prisoner, a commitment was made, and he was sent to prison for trial. No motive is alleged for the commission of the crime, and it is therefore inexplicable what could have induced one so young to perpetrate so heinous an offence. We understand his case will go before the Grand Jury immediately, and he will have his trial at the present term of Court. COURT OF QUARTER SESSIONS .- Present: Hon William B. The owner of the property having reason to believe that the fire was caused by an incendiary, engaged officer Hague to ferret the scoundrel out. That vigilant officer set his wits to work, and in a short time came to the conclusion that a young man named Edward Lambort, employed in the glass works of Mr. Phillips, was the individual he was in Bearch of. Accordingly, he yesterday proceeded to the establishment where he was at work, and took him into custody. The young man displayed some trepidation at first, but allowed himself to be quietly taken to the office of 'Squire Steel, where he made the following confession:

"I reside in Hardscrable, in the Eighth Ward of the city of Pittsburgh. I was twenty-one years of age on the Sth day of April last. I am a glass blower by trade, and work for Mr. Phillips. On last Saturday night week, about 12 o'clock, I set fire to the stable of William Phillips, I have been a fremman about for the same private clitzens were in the procession.

Dr. KENNEDY, of Roxbury, has discovered in one our common pasture weeds a remedy that oures EVERY KIND OF HUMOR. from the worst Scrofiula down to a common pimple

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is a periect cure is warrance when the accordingly taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial, it always speaks for itself. There are two things about this herb that appear to me surprising: first, that it grows in our pastures, in some places quite plantiful, and yet its value has never been known until I discovered in 1846—second, that it should cure all kinds of humor.

humor.

In order to give some ides of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale druggists, who have been in bust-In my own practice I always kept it strictly for humors, but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I

great and wonderful virtues have been found in it that I naver suspected.

Esveral cases of epileptic fits—a disease which was always considered incurable—have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady;—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged poople, used by it. For the various diseases of the Liver, Sick Headache, Dyspepsis, Asthma, Forer and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary. Eat the best you get, and enough of it.

Directions for the —Adults, one table spoonful per day. Children over ten yearn, desarret spoonful. Children from two to eight years, tes spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

This preparation for the treatment of the above disease, and perfect eradica-tion of the cause, is one of the most important Chemical Discoveries of the 19th century. Its neutralizing effects n the poisonous gases are instantaneous, and acts like a harm upon the whole Nervous and Muscular System, re storing the tone of the Stomach, and invigorating the Con stitution.
Unlike the general remedies reserted to for its treatment

such as Quinine, Arsenic, &c., which leave the system worse than they found it, it improves the general health, purifies the blood, and stimulates the different organs to regular and healthy action. Being prepared under the immediate supervision of an eminent Chemist, uniformity of strength may always be relied on. Its unprecedented demand, and the thousand of testimonials from eminent Physicians, and others who have been thoroughly cured, are a sufficient guarantee of its superiority over all other preparations.
