Old Monongahela Whisky, of gether in such a manner as to insure the best results. The system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy, than had hitherto bean obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualifies, by this each individual virtue only that is desired for the curattry effect is present. All the inert and obnoxious qualifies, of each substance employed are left behind, the curative virtues only being retained. Hence it is self-wident that the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, i have supplied the accurate Formula by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be anyone who has not-received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how sew would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Oherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are Cash Surplus, on let Jawarn, 1855......\$273,273

THIS Capital Stock and Burplus is securely invested for I the benefit of all policy holders. As an evidence of the claims we have to public confidence, and of its ability to pay losses promptly, we state a fact, that its receipts vary from \$125,000 to \$160,000 per month. Its business is large and well distributed, and in our opinion no Company in the United States affords better indemnity to policy holders than the Æins. They continue to make insurance on property in town and country; at rates as low as is consistent with safety to the policy holder.
