Dear Sir — I have examined Hopper's Patent Bouch
Plane, and believe it to be a most excellent article for the
use for which it is intended, as a combination of plane and
scraper.

It is particularly adapted to planing veneers, and it does
not require one-fourth the time or islor of the old method;
and I have no doubt, when its properties become generally
known, but that it will entirely upersade the former tedious and laborious custum.

I most cheerfully recommend it to all persons engaged in
the Cabinet business, as from my knowledge of it, there is
nothing as well fitted to gir a smooth and beautiful finish
to veneers as the Hopper Patent Bunch Plane.
