The editor of the Morning Peri, however, seams impressed with the hallucination that he is the embodinent of our party, in this county. He is not content with letting three party, in this county. He is not content with letting three party, in this county. He is not content with letting three party, in this county. He is not content with letting three party in the discretion be rejected.

Last spring a Democratic County Convention, knowing the discreptable means resorted to by Know Nothings to pack our Convention, mannimously adopted a certain line of policy, in order to avoid such oursage in future. The action of the Convention has been endorsed by the Democratic county counties of Correspondence: and instead of the Morning Post recognising their joint settion. It very painly informs its readers that such arrangements do not suit the tasse. If the editor of that paper were permitted to dissolve all party organisations, and allowed to distors what course we should pursue, all would be right smough; but he chould remember that he is but one warn, and his opinions, eithough printed in a newspaper, are entitled to no more weight than if they were spoken upon a street cornor. The Democracy are under so obligations to Mr. Glimere that they should heliste bow to act before knowing his opinions. He is sustained in his business by our party, crowing rich upon their bounty; and in return for party, crowing rich upon their bount; and in return for heir favors they do not look for gratuitous involence. His business is to full, we the course marked out by the properly constituted authority of our party, and not reek to sow dissension by unnimely and impudent interference.

In his paper yeasterlay, the editor of the Past not only expresses bitter heatility to a union of our citizons upon a county ticket, but calls lustily for a Democratic County Convention. This Mr. Editor, smacks of Know Nothingism, for it is notorious that every member of the secret order in our coun y is in favor of precisely the same course.

The Convent

When the writer asserts that we seek to contricks we despise and detest, and we never engage in it. Neither will we permt others who make such business their trade to rule over us. The Democratic County Convention of last fall provided for a County Committee of Correspondence. That committee was appointedswenty-six in number. It was a good committee, though the Union has slandered it by applying to it its stereotyped libel of Nnow Nothingism. That committee was appointed to serve one year. But a convention was called in April last for the simple purpose of selecting delegates to the Harrisburg Convention to nominate a Canal Commissioner. That County Convenvention-a very small one, chose to go beyond committee was also to put in nomination a ticket for the county and legislative offices; and it was to be a fusion ticket if any party could be found to unite with us. No County Convention was to be called to nominate a ticket. Mr. Farley's committee was to make the ticket, and the people were to have nothing to say about it except to vote for it. To these innovations upon Democratic usages we objected. Nor was its proper functions, and it authorised Mr. of Pennsylvania—that is the Columbia Railroad por stated that he had appeared at the request Thomas Farley to appoint a new committee, and the Canal from Columbia to Pittsburgh, in- of the respondent's father, as a mark of respect we alone in objecting. we met was dissatisfied with this novel experiment in party management. They demanded, and we demanded, a County Convention as usuand abide by our principles. For entertaining these views and expressing them the writer in the Union takes us to task as above quiete. And behold the result! The Democratic Countiened there. One firm alone is mentioned to been mailed there, containing money, never been expesion, and, after full discussion, decided by a with water. Our views were then fully sustained. and the County Convention will meet on the 22d of August.

It will be seen that all we have contended for was that the people should select the ticket to be voted for, and not the politicians. We are opposed to the one man power, and will ever contend against the few ruling the many. So important a matter as the nominations to all the best offices in the county and six members of the legislature, should be done by the people in the usual way. We are glad the committee so decided, and hope there will be a full convention, fairly representing the Democracy of the county.

purely Democratic ticket, he says that smacks of Know Nothingism. The sum and substance of the writer's remarks is that it is not good Democracy to be all the time a Democrat. Fusion with Whigs is in his esteem the only true test of Democracy.

But we can notice such folly no further. The action of the committee sustains our course, and the lies of the anonymous scribbler will do us no harm.

Heard of Health Notice.

Information has been made to the Board of Health that cases of cholers occurring outside of the city have been brought within its limits for relief. No doubt the fitness of the sick are prompted by motives of humanity, yet it is proper they should be informed that they subject themselves to a severe penalty by so doing.

The Legislature passed laws regulating this matter, in cases where the disease is malignant or contagious, in order that the densely populated city may be protected from any unnecessary scourge, which, when it has gained a footing, scarcely rests so long as there remains a subject for its emorseless attack.
