We would respectfully represent that, if the above are the honest opinions of Gov. Reeder, you must admit his utter incompetency to discharge the high duties imposed upon him, and he should be removed. If they be not his honest opinions, then he is acting with the sinister de-tign of defeating the whole object for which we If he believes that Fort Leavenworth is the if he believes that Fort Leavenworth is the seat of Government, and that laws passed any where else than at that point would be illegal and void, then to call us to Pawnee to legislate is a wilful, deliberate and base attempt to renied as all our cate of whotever character. der all our acts, of whatever character, wholly illegal and void; because, by his showing, Paw-nee is not the seat of Government, and acts passed anywhere else than at the seat of Governpassed any whole cleasity void, and for which he should be removed.

We will not proceed further with this, but will simply aver from the action of Congress, Fort Leavenworth is not now the temporary scat of Government. The bill provides in the 31st section, that Fort Leavenworth shall be the comporary seat of Government, and that such building as may not be needed for the use of the military, shall be used by the Governor and legislative Assembly: A subsequent clause of legislative Assembly: A subsequent clause of an appropriation bill provides for the appropriation of twenty five thousand dollars to be expended upon the contingency, or rather the appended upon the contingency, or rather the appropriation made on the contingency, that the requisite buildings could not be obtained from the military or war department. That appropriation having been made and paid over, priored conclusively that the contingency men-tioned has arisen, and that the buildings are refused. A subsequent appropriation made on the 3d of March, 1855, provides that the sum of twenty-five thousand dollars be appropriaor twenty-nve thousand donars of appropria-ted, and that, in addition to the amount alrnment and the place for the legislature to meet and transact business, then this absurd created there, and that they shall not have any of the money to creat other buildings which fort and convenience of the sovereigns; that they never intended to fix an arbitrary rule which the people could not alter, if found inconvenient; that it was more a permission granted by Congress that we might have the use of John A. Quitman, of Miss, as their candidate. buildings or sit at that point, than comthose bandings or sit at that point, than tomnoro assiracio. We will and do further represent that the po sition assumed by the Governor is a despotio and tyrannical one, calculated to lead to the worst consequences if he is not forthwith removed.

Already threats in advance have been made that no respect would be shown to any act pass. ed by this Legislative Assembly, whensoove and wheresoever such act or acts may be passed. Several papers in the Territory boldly advocate this position. A man professing to have been elected to the Legislature, (M. F. Conway,) who afterwards tendered his resignation, advocates this destring of registance. The Gazzner is this doctrine of resistance. The Governor is and has been on terms of intimacy with those very persons; and, with him as their leader, they may be led to the commission of acts which will insvitably result in wide-spread strife and Governor or private offizen, has a right to set defiance, even if unconstitution and void, unless so decided by the proper courts.

This principle is so well understood that we are not prepared to imagine that Governor Reeder is ignorant of it, even taking his own argument as an index of his intelligence; and there must be a wilful and base design to lead the less informed into the commission of treasonable acts, for which he should be removed. In conclusion, we charge the Governor, A. L. the Territory—with endeavoring, by all the needay. It is hoped that every democrat who re-Reeder, with wilful neglect of the interests d to be accomplished by the "Kanmeans in his power, to subvert the ends and obsas and Nebraska bill"—by neglecting the public interests and making them enhancement to lic interests and making them substituted to true and remains described parties, democrate private speculation; by siding and encouraging In the present state of political parties, democrate private speculation; by aiding and encouraging persons in factious and treasonable opposition to the wishes of the majority of the citizens of the Territory, and the laws of the United States in force in said Territory; by encouraging persons to violate the laws of the United States, some to violate the laws of the United States, and said the suffrages of the people, and work zealously the suffrages of the people, and work zealously faith the suffrages of the people, and work zealously faith the suffrages of the people. and set at defiance the commands of the General Government; by inciting persons to resist the laws which may be passed by the present Legislative Assembly of this Territory, and, finally, by a virtual dissolution of all connection with the present Legislative Assembly of this now held by him in said Territory; and repre-sent that a continuance of the same will be in his conjecture.
