NEW ADVERTISEMENTS. Diseases of the Liver .-- When the cele rate | Dr. Rush declared that drunkenness was a disease w enunciated a truth which the exterience and observ on of medical men is every day confirming. The many apparently insane excesses of those who include in the n spirituous liquors, may be thus accounted for. The true cause of conduct, which is taken for infatuation, is vor frequently a diseased state of the Liver. No organ in the atalogue of diseases. And if, instead of applying remedies to the manifestations of disease, as is too often the cas cause, fower deaths would result from diseases induced by enumerated under the head of Consumption, have their se-Purchasers will please be careful to ask for, and take n but Dr. M'Lane's Liver Pilis. The Commercial department of this institution has had the unremitting attention of the Principal for the last fifteen years. Upwards of 8000 students have been prepared by him for business. His "young men" assistants have ail been trained for business by himself, and are experienced Teachers and practical Accountants; being frequently employed by business men in adjusting deranged books. There are no teachers in this institution who were in this city dismissed from their situations as book-keepers; none who made twenty blunders on a single page of a bill-book. Our writing teacher (Mr. Williams) has had something more than a few lessons from a Philadelphia teacher to prepare him for his business. No runners are employed by this institution. When our citizens are importuned by those of another, they should refer to some of our city Bank officers or merchants—persons whose opinion can be relied upon—and not be decoyed into one of those concerns which are being sold out every few months, and their pupils left to seek instruction where they can find it.

To Physicians, or those wanting a Country He Subsconfiber of the seek instruction where they can find it.

The Subsconliber offers for sale his property, 7 miles from Pittsburgh, on the Steubenville Turupike. It contains TWO AORISS of good level land, well fenced; on which is erected a fine new two-and-a half story frame house, with six rooms, and basement office and cellar, built and finished in modern style. A good stable, and other necessary out-buildings. A good well and cickurp, with pump. There are about 100 choice fruit trees, of every variotry, just beginning to bear. In short, everything necessary to make it a comfortable home.

To a physician wishing a good lecation, this offers superior indocements, as it is in a rich and populous country, and the subscriber is now doing an extensive practice. A Stage runs daily to and from Pittsburgh; Post cilice (two daily mails)
