WEDNESDAY MORNINGHIMMAUGUST 29. ______ PROGREDINGS OF COUNCILS .- The clerks of the Councils neglected to furnish us with the official proceedings of those bodies for publication, and we are consequently unable to present them to our readers this morning. We may state that here was no business of any particular imporance transacted.

A WESTERN HOTEL-THE "YOUNG AMERICA," CHICAGO.-The growth of several of the lake CHOAGO.—The growth of several of the lake cities has been extraordinary; but that of Chicago is so truly marvellous that it has no equal on this hemisphere, if perhaps we except San Francisco, the young giant of the Pacific. As a consequence, her public buildings, generally speaking, have not kept pace with her immense speaking, have not kept pace with her immense most a total wreck. trade and increase of population. An exception to this rule is to be made in regard to her hotels; for in this she is cortainly inferior to no city in the West. Indeed, one of her hotels-'Young America"—in the magnificence of its furniture, the completeness of its arrangements for luxury and comfort, as well as quiet in the midst of a bustling city, is unsurpassed by any hotel cither in the East or West. This house was built in 1853, and leased by Massra Hulme & White for ten years, who expended unwards of \$60.000 in furniture alone. The Bridal Chamber, in the dazzling extravagance of its decorations, is said to rival the selebrated apartment of the same kind in the St. Nicholas, New York. Mr. D. D. Carr, formerly of this oity, is Messrs Hulme & White's right hand man at the Young America, and his smiling phiz is

always ready to welcome a Pittsburgher to the Garden City with that cordiality only to be met with in a friend. Strangers traveling that way should visit the Young America as one of the institutions of the Garden City. A DEFAULTER MAKING RESTITUTION .- About ave years ago, a gentleman residing in this city, who was engaged in the retail grocery business by strict application to his store, managed to save five or six hundred dollars, which he do posited in one of our banks. An intimate friend, who was considered to be rather wealthy and person of undoubted integrity, learned this fact, went to the gentleman, and by representation of the foolishness of allowing such a sum to remain unproductive in a bank, induced the greeer to lend the money to him. A mortgage on a valuable house and lot was given as security. A very few days after this transac tion, the borrower failed for a large amount

and the lender, on taking measures to secure his loan, found that the property on which the mortgage was given belonged to the mother of the borrower, and that not a gent of his claim could be realized. The gentleman was of course greatly chagrined and indignant at late to help the matter then, concluded to bear his loss as philosophically as he could. defaulting creditor, shortly after started for California, and for several years he was not heard of, until he turned up that spring as the keeper of a store in the mines, doing a good busi ness, and possessed of considerable of a fortune

He was not again heard from, until the arrival of the steamer, a few weeks ago, from Califor nia, when the gentleman from whom the money had been borrowed received a note from him stating that he had sent over a thousand dollars. to pay orincipal and interest of the long stand og account, and that that sum was now await nog account, and that that sum was now awaiting his order at a banking house in New York, which he named. The gentleman had given up all hopes of ever rating his money, and was astounded at the intelligence. He took measures, however, to ascertain its truth, by writing on to New York. A few days after, he received on to Now York. A few days after, be received a letter from the bankers named, which fully

corroborated it in every particular, and the gentiemen departed immediately for that city, to get the money. He has not yet returne. hut

Charles Connell also made information before Parkinson against Jacob Trax, a watchman at the Liberty street depot of the Pennsylvania Railroad, for assault and baitery. He says that while standing in the depot, answering inquiries addressed to him by a female, Trax came up and credered him to leave the place. He started to go, but before he got out, Trax struck him and foreibly aboved him out. Trax was arrested and held to bail.
