We hereby certify, that during the last twelve months
we have used Hopper's Pat-nt Plane, and do not healthe
to recommend it to Cabinet-Makers and Carpenters as superfor to any other Plane in usa. We consider it peculiarly
aciapted to planing oak, cherry, walnut, and all sorts of
hard wood, and for planing seneers, it is far superior to
the old mode of scraping, besides being a great saving of
time. One man, by using this Plane, will plane more
reneers than five men can do by any other plane or method
in use.
