PARKER & LAIRD, Proprietors. Did space permit, we could give many interest court of the cates from all parts where the Pills have been used, but evidence even more coavincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best suff most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable Remedies extracted by Chemical process in a state of purity, and combined to gether in such a manner as to insure the best results. The experience of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a surge efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or iesa of aerimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the, inert and, obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident that the effects should prove as they have proved, more purely remedial, Company.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic ment. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pilis, and even more confidently, and are thing of my Pilis, and even more confidently, and are realized by their effects upon trial.

They operate by their powerful influence on the internal viscars to purify the blood and estimulate it into healthy extion—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they are into and derangements as are the first origin of disease.
