If such a decision had been made, it would have be directly in violation of the law, and a judicial outrage. But no such decision ever was made, and the publica is false from beginning to end. FOR REMOVING CORN FROM THE COB

NEW ADVERTISEMENTS

MOST EXTRAORDINARY MACHINE,

RAPIDITY OF HAND WORKING! It is an entire new principle EVER BEFORE DISCOVERED A GREAT CURIOSITY A boy 12 years old will shell from seventy to eightly busless of Corn in a day, (without fatigue) of either dry, dam or green Corn—separating it from the Cob. No cleaning the corn required. Every kernal is removed from any sicob, not destroying even the husk in which the corn grow Instead of crushing the Corn off the cob, it is picked on as a child would do with his fingers. It picks off the fathernels for planting. Every farmer knows no machine heaver done this:
