NEWS FOR RIVER MEN. THE RIVER.-Last evening at dusk there were 6 feet 7 inches water, by the pier marks, and stationary for the past 24 hours. The weather is moderate, with what a scotchman would say, "a Ecotch fog falling,"—which will be a preventive of the river falling.

THE steamer "Diurnal," Capt. J. A. Shoals, is the regular

Wheeling packet this morning; she leaves at 10 o'clock. THE steamer "Bay City," Capt. A. D. Miller, will leave at 10 o'clock this morning for Louisville. Miller, will leave at Tax fine steamer "Granite State," Capt. M. Ford, was detained yesterday; she will positively leave to-day for Et. Louis. Passengers taken through direct, in the quickest

ossible time yet made. THE fast steamer " Lucie May," Capt. J.J. Robinson, will leave to-day for Cincinnati. We need only make mention MLLE, TERESA PARODI of the fog pilot, Mr. Jas. M'Donald, he will see her through in railroad time. Besides, her clerks are attentive and will see that all on board are well cared for. THE Cincinnati Columbian, of the 5th says:

The Cincinnati Columbian, of the 5th says:

The river at this point has been rising slightly for a couple of days past, on account of heavy rains, which have seen frequent in this vicinity. The rise will not affect navigation to any extent, and the last arrival from below report the river falling at Cairo. The Ohlo river is low and failing, which has considerable effect on the stage of water in this river between here and Cuiro. New Orieans boats cannot now go out drawing over seven feet with safety, which they are not able to stand at the present low ra end freight. They are, consequently, lying at the Levee, doing very little business, and the last of next week will probably see some of them still to port. THE St. Louis Democrat, of the 4th says:

The river at this point continues on a stand. We have learned nothing of consequence in regard to the state of the Upper Mississippi, the Illinois or the Missouri. There is no improvement in these streams.

# Spectacles and Surgical Operations Uscless...The Blind May Sec...It is gratifying for us to be able to announce to the public that the utility of BALLS' PATENT EYE OUPS is now no experinent,-their wonderful effects are coming daily to the knowledge of the proprietors. Strange as it may seem, it is true, that Speciacles may be dispensed with entirely and Miss MATILDA HERON in the great Tragic Play sight restored to its original power. These cups are simple, yet philosophical. They are used without pain or the least danger of injury. Below will be found geveral cartificates which speak highly in their favor: (From the New York Evangelist.)

MEDICAL.

A very simple wet philosophical instrument, has been invented by J. Ball & Co., of this city, by the application of which the cornes of the eye is gradually raised to its original convexity, causing the focus to implinge on the retina without the aid of convex lenses. Thus ty an easy process persons who have used glasses for years are enabled to dispense with them.

The editor of the Pennsylvania Democrat writes as follows, respecting the cure of Mrs. Gurstead, of Uniontown canneylvania:

Camille, Miss Vatilda Heror; Armand, Mr. C. Foster; De Varville, McBride; Duvall, Cunningham; Guston, Dubois; Marienne, Julia M. Cooke. N. B — In consequence of the  $ex^{i}$  reme length of the play, o other piece can be performed with it. Doors open at 1/4 to 7; performance to begin at 71/4. CITY HALL.
