H. H. RYAN, nov15:2w

No. 31 Fifth street.

SHINGLE MACHINE. AENDALL'S Patent Double Acting River and Shaver. THE attention of Shingle and Lumber dealers, specule tors and others, is directed to this invaluable inven

Shingles.
Various culting and sawing machines have been invented for making Shingles, but it is a well known fact that Phingles cut or sawed across the grain, are quite to filmly for roofing purposes. Numerous inventions have recently appeared for riving, and they and they have all beautiful and chaving, and these have all beautiful and condemned as worthless, from their imperfect method of riving, which consists of splitting from the side of the block but one shingle, which almost invariably runs off.

This difficulty is entirely obvisted by

ENNALUS M ACCHINE. Sentirely obviated by KENDALL'S MACHINE. Which first splits from the side of the bicks a picce thick enough for two chingles, which is separated in the centre, and by means of clastic guides each part is conducted through a joir of approximating kulves, which completes the operation; thus producing two at ingles at every revolution This machine will rive and thave from the block three nourand shingles per hour, of uniform thickness and ta-er, superior in so idity and durability to those made by per, soperit in to faily and dorsmally to those made by hand or any other process.

Its op rations are by no means confined to pine and other soft word, but works to requal advantage, oak, walnut and every other description of timber that can be split.

The workings of the mackine can be examined at H. H. Bran's Furniture Buildings, Fifth street, Eittburgh.

10 thuber owners, shingle dealers, and men of enterprise, this opens a new fid for speculation; as there is no similar furention extant. Invention extant.

The mathine occupies but a small space is of durable construction, and costs but about two hundred dollars, and a man and two boys can make from 25 000 to 30,000 shim. a man and two-boys can make from 25,000 to 30,000 thingies per day.

For right of territry, or machines, inquire at No. 31 with street, or at the (thy flote).

ASP All needed information will be forwarded by letter, when desired.

O. K. CHAMBERLIN, Agent. novlboder HOLLAND FLOWER-ROOTS. HOLLAND FLOWER-HOOTS.
