tions. All orders will be promptly filled

No PAPER To-MORROW .- This being the

THANKSGIVING .. THE ORIGIN OF ITS This, Thursday, November 221, is the day

recommended by Governors of seven States o the Union as one of thanksgiving and praise for the many blessings bestowed upon us as a people, and the many dire calamities which we have been spared. Those States are Pennsylvania, Ohio, Illinois, Iowa, Maine, Florida, and Delaware. Virginia and Maryland had theirs on Thursday the 15th of November; and New Hampsbire, Massachusetts, Connecticut, Rhode Island, New York, Missouri, Wisconsin, Michigan, Texas, and Indiana are to have theirs on Thursday next. In New England the observance of Christmas as a holiday is very slight indeed, but Thanksgiving is of all the year the most disastrous to turkeys, pumpkin pies, and good things generally. It is a time when old fauds are forgotten for the nonce; families that have been separated all the year assemble around the blazing hearth and family board, and every thrifty New Eagland housewife indulges in commendable rivalry with her neighbor in procuring the good things of the land for Thanksgiving dinner. Some States, it will be noticed, observe the 16th, others the condition. Our brokers are also increasing 221, and still others the 29th of November; but all agree on the same day of the week. A correspondent asks us. "Why is it that

Thanksgiving Day is always made to come on Thursday ? It has been so in former years and this year although the Governors of some of the States fix on different days of the month they all agree on the same day of the week." A at least to our knowledge; hence any sugges tions we make must be taken for what they are worth. The custom of annual Thanksgiving arose, we believe, among the Puritans of New England. As they were a Christian people about to establish a Christian festival, we may reasonably suppose they took the history of see why they considered Thursday the appropriste day for this purpose. The time of the Jewish Passover depended on the state of the moon, and as astronomy was then but little cultivated it could not always be fixed with acou racy. Hence it is a disputed point whether our little is done under one per cent. a month Saviour ate the Passover the year of the Cruci- Paper that is not well approved is in no greater fixion or not. It is certain, however, that on favor than last week. It is only the very best Eucharist was instituted. Although the Pass- sons are under the impression that the bluster over in that year was involved in philological, of the London Times, and the threatened war between England and the United States was a well devised scheme to disturb the money martime of this supper can be easily fixed in several ways: 1st. The reason given why the bones rency, choapen the prices of such articles of of those who were crucified should be broken production in this country as England wants to buy. The act of the Times is calculated to and their hodies taken dawn was that the next day was the Sabbath—that is, our Saturday was really its design we shall probably be The Crucifixion, therefore, occurred on Friday, more satisfactorily informed by the next steamand the supper being the evening before was on er's news.

a permanent one. COLTON'S NEW ATLAS.

We have examined the first volume of a ne-Atlas published by Colton & Co., of New York, published in this country. This first volume is the 5th inst., as compared with the returns of devoted to the American continent, and contains | the previous week, shows an increase in all the devoted to the American continent, and contains departments as follows: Loans. \$62,905; Specie. \$844,938; Circulation, \$253,265; Deposits paper. There is a map for each State of the \$276,738. Union, and for each political division of the American continent and groups of Islands. The maps are executed with great fidelity, giving the gold deposits, \$477,72; gold coinage, half eagles, \$8,000; silver coinage, half dollars, counties of each State, the cities and large towns \$200,000; total gold and silver coinage, \$208, and county seats, the rivers, railroads, postroads, mountains and all other matters usually contained in the best maps. And late surveys ty in maps. The coloring of the maps is in Rest. good taste, and the separate maps of all the Govern't securities £10,828 950 Dec. £306,409 bruised, and burnt, and mangled. The remains tistical information from the latest census returns. This one feature, of course, renders i more valuable than any Atlas of prior date. ready for delivery in February: and will con- gold had temporarily ceased. The bank of Amtain about the same number of maps of all the countries of Europe, Asia, Africa and the adja cent islands. The second volume, we are assur ed, will equal in execution the first, and if so it will be a most valuable work. Statistical information will also be given in the second volume as in the first. The stirring and important events now occurring all over the world have aroused angearnest and general desire for geo indefatigable impressari) in America. Max has graphical and statistical information. The two had more to do with prima donnas, leading Crawford county, aged about four years, was considered will furnish as much and as reliable in teners, basses, et id owne genus, than any man drowned in Woodcook creek, on Tuesday last. formation as any work of its kind ever published. It has been got up at great expense, and will, no doubt, find a ready sale. The agent of the publishers is now in the city procuring subscriptions to the work, and meets with good encouragement so far. We can safely commend it by H. Miner and W. A. Gildonfenney, at their to all who want such a work. A glance at its book stores. pages by any intelligent person will satisfy him

Nebraska-Democratic Victory. The people of this promising young territory have elected Bird B. Chapman, Democrat, their delegate to Congress. He was opposed by Judge Bennett, a Fuelon candidate; Hen. N. B. Giddings, the former delegate, and L. L. Bowen, the "people's candidate." His election is a credit to himself and to his party.

that it possesses all the merit and value we ac-

But the will agree on the same person very speedily. daily paper issued to-morrow. If anything of state of navigation in the Ohio river has been importance is received by telegraph, it will be greatly in favor of the road this year. There night to rob the Pynchon Bank, at Springfield, all the time, and there is a prospect of its con-

> The late rise in the river has let out the coal boats in large numbers, and thus another source of our city's prosperity is favored. The amount of coal that had left on this rise, up to Wednesday evening, was about one hundred and ten pairs. These, at an average of twenty thousand bushels per pair would make two million two hushels.

The money market is a little tight just now It is the season now when the demand for money is the largest, and the unusual amount of business doing this fall requires a large amount of money. Our banks are all sound and well supmaking money. Some of them show dividends of five per cent. for the six mouths. Our bank stocks bear higher prices than ever before. Even the Mechanic's bank stock is at a premium of three per cent., although it has been in operation only a few months. The stock of the Bank of Pittsburgh is at a premium of eighteen per cent. The other banks show a prosperous their business, and are quietly prospering. This a very different state of things from what existed here last year. In November, 1854, there was a panic, a rush upon the bankers, and a general lack of confidence. Not half the busimerely to escape from loss.

night and day, and have abundant markets from the letter : for their fabrics, as have all one manufacturers The two principal flouring mills, we are told ndent arong the consequent restoration of Christianity for a precedent. traditions in a connected narrative, interweaving with them various other remains of leagendary lore, and adorning the story with numerous descriptins of the sylvan landscape. The scene is placed smong the Qilvays on the southern shore of Lake Superior, between the Pictured Rocks and the Grant Sable. The poem opens rather abrupilly with an explanation of its origin and design.)

Should you ask me, whence these stories:

Whence these legends and traditions,

With the odore of the forest,

With the curling smoke of vigwams,

With the curling smoke of vigwams,

With the curling smoke of vigwams,

With their frequent repetitions,

And their wild reverberations,

As of thunder in the mountains!

I chould answer, I should toil you,

"From the forests and the prairies,

From the great lakes of the Northland,

From the land of the Dicothas,

From the land of the Decothas,

From the ind of the Decothas,

From the mountains, moors and fen-lands,

Where the herou, the Shuh-shuh-gah,

Foeds among the reeds wad rushes.

I repeat them as I heard them

From the light of Nawadaha,

The musician, the sweet singer."

Should you ask where Nawadaha

Found these songs, so wild and wayward,

Found these legends and traditions,

I should answer, I should tell you,
