Wegetable Life PiHs and Pho
"Bitters."

Par A CONTRAST.—All sations, fitm the remotive state of the state o

In many hundreds of certificated instances, they have even rescued sufferers from the very verge often untimely grave, after all the deceptive n strums of the day had utterly failed; and to many thousands they have permanently secured that uniform e joy ment of heath, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariable and infallibly proved, that it has appeared scarcely and infallibly proved, that it has appeared scarcely with the beautiful philosophical principles urion which they are compounded, and upon which they consequently act. It was to their monifest and sensible action in purifying the springs, and channels of life, and enduring them with renewed tone and vigor, that they were indebted for their name, which was bestowed upon them at the spontaneous request of bestowed upon them at the spontaneous request of several individuals whose lives they had obviously

aved.

The proprietors rejoice in the opportunity afforded by the universal diffusion of the daily press; for placing his VEGETABLE LIFE PILLS within the knowledge and reach of every individual in the community. Inslike the host of permicious quackeries, which boast of vegetable ingredients, the Life Pills are purely and solkery vegetable, and contain neither Mercury, Antiniony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmacontical chamists, are a together miknown to the ignorest centical chemists, are a together unknown to the igno-rant pretanders to medical science; and were never ore administered in so happily efficacious a com-

Their first operation is to loosen from the coats of the stomach, and howels, the various impurities and crudities constantly setting around them; and to re-move the hardened frees which cole of in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind, as to produce habitual costlyeness. with all its train of evils, or sudden diarrhera, is not regular anatomists, who examine the human bowels a far better recommendation than the course reafter death; and hence the prejudice of these well in formedmen against the quack medicines of the age, who to exist a under the public, publish The second effect of the VICEST BLE. It is what they call practical private and certificates of The second effect of the VIKEST VBLEZ LIT is publicly set to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blooc, which takes its red color from the agency of the liver and the lungs before it passes me the heart, being thus perified by them, and nonrished by food coming from a clean stomach, courses freely through the veins, renews ever part of the system, and triumphantly mobilis the banner of health in the blooming check.

banner of health in the blooming check.

The following are among the distressing variety of human diseases, to which the Vegetable Life Pills are well known to be infallible—

are well known to be infallible—

DYSPEPSIA, by throughly cleansing the first and second stomachs, and creating a flow of pure health, bile, instead of the stale and acrid kind; — Flakilener, Palpitation of the Heart, Loss of Appetue, Hart-born and Head-ache, Restlessness, Ill-temper, Anxiety, Innguo, and Melancholy which are the general symptome of Dyspepsia, will vanish, as a natural consequence of its oure. Continuens, by cleansing the whole length of the intestines with a sulvent process, and without violence; all violent, purges leave the bowelsicostics within two days. Diarrhay and Cheleia, by removeing the sharp-acrid fluids by which these comip sints are—occasioned, and by promoting the lubicative tre-occasioned, and by promoting the lubricative secretion of the mucus membrane. Fevers of all kinds by restoring the blood to a regular circulation, brough the process of perspiration in some cases, and the process of perspiration in some cases, and the through solution of all-intestinal obstructions in other through solution of all-intestinal obstructions in other through solution of all-intestinal obstructions in other through solution of all-intential obstructions in the struction in the solution in the solution in the master of the lands of the solution of all-intential obstructions in the solution and colors, with an department of Sunnarc Cloths, Vistings, Linen and Colling objects, and all kinds of Gentlemen's wearing apparred, which will be sold in solution in the solution of the most of sunnarc cloths, Vistings, Linen and Colling in the solution shifts, Collars, Bosoms, Stocks, Gloves, Sunders, linen and cotton Hose, and all kinds of Gentlemen's wearing apparred, which will be sold in the most approved style as to the work mankely in the City or elsewhere.

means.

DIRECTIONS FOR USE.—The proprietors of the Vzertable Left Pittle does not follow the bage and mercenary practice of the quacks of the day, in advising persons to take his Pills in large quantities. No good medicine can possibly be so required. These Pills are to be taken at bed time every night, for a week or fortnighti according to the obstinacy of the disease. The usual dose is from 2 to 5, according to the constitution of the person. Very delicate persons chould begin with but two, and increase as the partner.

Those who may have orders for large Glasses, would do well to inform us by letter, previous to should begin with but two, and increase as the hature of the case may require; those more robust, or of very contive habit, may begin with 3, and increase to 4, or even 5 Pills, and they will effect a sufficiently happy change to gaide the patient in their further use. These Pills, sometimes occasion sickness and woming though very seldom, unless the stomach is vile foult this, however, may be considered a favorabe symptom, as the patient will find himself at order in lieved, and by perseverance will soon recover. They usually operate within 10 or 12 hours, and never give paint, unless the bowle are very much encumbered. They may be taken by the most delicate femalits up. pain, unless the bowels are very much encumbered. They may be taken by the most delicate femalist up der any circumstances—lvis. however, resomment up to the those in later poriods of pregnancy should take betone at a time, and thus continue to keep the slowels open; and even two may be taken where the phinemia very continue. One pill in a solution of two makes in London by the Redigious Tract. Society, revisements followed as may be viverite an infant in the deal of the resolution of two makes in the continued with Mayes and is very costive. One pill in a solution of two lable spoons full of water, may be giver to an infan; in the following dosers—a tea spoon full every two hops with the following dosers at ea spoon full every two hops with the possess; for a child from one to five years of age, half apill—and from five to ten, outspill.

THE PHENIX BITTERS, are so called because the possess, the power of restoring the expuriting for the possess, the power of restoring the expuriting for the possess, the power of restoring the expuriting for the possess, the power of restoring the expuriting for the possess, the power of restoring the expuriting for the possess, the power of restoring the expuriting for the pill of the power of restoring the expuriting for the power of restoring the expurition, as the Phenix is said to be restored to the power of the power of

And how is it expected that they will secure health And how is it expected that they will secure health to the stomach and bowels? With by enabling the one to digest food, and the other to carry off what is left after the nutriment is extracted, in connection with the surplus of bile, and the food humors of the blood, mucous membranes, and stomach. And they accomplish these great feats of medicine in the most simple way maginable. The APERIENT FAMILY PILLS, if the stomach be affected with wind, bile, or crated collections, clear it out, by a natural but a most insensible solvent action, and cleanse, the whole alimentary canal, without griping, and leaving it as free without debility, as nature ever designed it to be.—
They do not take the skin off the stomach and bowlas, and leave them like a piece of red velvet, as all plysicians know the strong drastic pills do; but they take nature kindly by the haud without crashing lier fingers. They cleanse every thing, without imparing or injuring any thing.

fingers. They cleanse every thing, without imparing or injuring any thing.

When this is effected, as it usually is by the use of a few of the FAMILY APERIENT PILLS, then come the celebrated CAMOMILE or TONIC PILLS, to strongthen a stomach and bowels which before, per haps, weak and foul because they were weak, and endows them with strength to perform their important functions, without the aid of physic. The CAMOMILE FLOWER, when its valuable principles are chemically extracted, is acknowledged by all physicians, in every age, to be the best vegetable tonic known in the science of medicine—There is nothing known in the vegetable kingdom of nature to equal it; nothing that is at once so harmless and so vigorouslihealthful, and in proof of this the proprietor of thy recowned pills that are made from its purest particles, might quote almost innumerable authors, both macient might quote almost innumerable authors, both ancient and modern, if his own practice had not proved it to

The effects of these pills are not only perceived i an increase of appetite and general strength, but in a restoration of the body to that universal vigor in all its functions, which indicates the return to perfectly sound health.—The face, and general complexion, speak volumes in their favor, and thousands of females can testify how much they have contributed to their comfort, their complexion, and their strength, when every other remedy had proved werse than usc-less. In nervous diseases, of all kinds, they are now less. In nervous discases, of sil kinds, they are now acknowledged to be preeminent; gradually restoring firmness of body and mind without those annoyance and changes which other nervous remedies occasion thappy would it, have been for many young persons of both sexes who are now in the silent grave, if they had learned to check the morbid tendencies of their stomach and bowels by these pure tonics and aperients, without resorting to quack remedies, the names of which are concealed, and of which they know That draught security CONST MPTION. DR. J. W. HOOD'S TRUSS For the immediate, Relief and Radical Cun Hernia or Rupure.

R. ENOS CHICHESTER has purchased to

R. ENOS CHICHESTER has purchased the right of vending; and applying Dr. J. w. Hood's Trust in Suhuykili county. This Trust has received the sauction of the most respectable Surgeons of physicians of Philidelphia, by which a gadical cure of this disease, an expectation that nearly, been abandoned as hopeless, is at complished with almost absolute, certainty and with perfect safety. Upwards of a hundred can with perfect safety. Upwards of a hundred can treated within a short timo in this city and vicinity, are known to be permanently corred and it. ireated within a short time in the cuty and with ify, are known to be permanently cured and the patients can now dispense with the use of and instrument, a success like this is unexample, in the annals of Surgery. The instrument, and themethod of perfecting gradical curron figure are now offered to those afflicted with this tran-

blesome complaint. He proposes it with confidence for the treat ment of this disease, and as meeting every indi-cation on correct surgical principles for its radi cation on correct surgical principles logue radical cure. The trusses heretofore employed mere by palliate the symptoms of the disease, they rarely ever effect a radical cure, and hence must be continually worn by the patient, often greatly to his annoyance. After the cure by the present apparatus is effected, all instruments are discontinued.

This Truss, with its appendages, can be wo at any age, and by both sexes without interrup-tion of business.

Gentlemen are referred to the following mem

bers of the profession, relative to this instrument and its claims in effecting radical cures.

WILLIAM GIRSON Professor of Surgery in the

University of Pennsylvania:
GRANVILLE SHARP PATTISON, Professor of An atomy in the Jefferson Medical College:
SAMUEL JACKSON, Professor of the Institutes of Medicine in the University of Pennsylvania.

College of Physicians. Edwin A. Atler, M. D. EDWIN P. ATLEE, M. D. Letters to the above named gentlemen must be

ree of experse. Copy of a letter from Samuel Jackson, Profes. sor of the Institutes of Medicine in the University of Pennsylvania.

DOCTOR HOOD: Dear Sir:-From the uniform failure of all the trusses I have seen and of the treatment em. ployed for hernia in propuring a radical cure by safe means, I had abandoned all expectation of seeing this desirable object reached. I must confess, that your apparatus and method of treating hernia, has, I believe, accomplished thus deside-atum, and the disease is rendered not only man-

ageable, but in the greater portion of cases cura-The principle of your treatment and of the operation of your apparatus is based to the physiology of the tissues, and is one of the soundest in

theoretical and practical surgery. There is nothing empirical in your proceedings or your instruments. They are the application of a well established principle of our science to the production of a specific effect. Professional instruction, skill and tact are necessary to attain it with certainty. The instruments alone without appropriate management and the adaption of their action to the individual according to the constitu-tional and other peculiarities of each case, would prove of little utility, or might even defeat the in

tention of the treatment.

From the remarkable success that has attended your treatment, and the cases of decided oures that have come under my own observation, giv-ing the sanction of facts in support of the scienti-fic principle, I have no hesitation in regarding your apparatus and method of treatment as estab ished in medical science. With consideration

and respect, truly yours, SAMUEL JACKSON. We have in our possession a number of certificates of the first respectability relative to the ource performed by this instrument, which we will show to any person desirous of satisfying himself with

regard to the efficacy of the envention.

Persons desirous of being cured of hernis or rupture, will do well to call on the subscriber before the extreme hot weather sets in, as the disease can be more readily cured in moderate

DIRECTION

Accompanying each bottle of the Specifick pointing out in a conspictious manner, all the symptoms in the different stages of these distresing diseases-also particular directions respectting diet and regimen, and how patients are to conduct through every stage until health is restored—for vain and uscless would be the pro-scriptions of the ablest physicians, accompanied with the most powerful and useful medicines, if the directions are not faithfully adhered to.

The public are informed that the depositions of 287 persons have been taken before proper auhorities in the city of Laucaster, all completely cured in the most desperate cases of consumption, some of which are detailed in the bills ac-

companying each bottle.

\*\*A supply of the above Specifica has been received and is for sale at this office.
