Persons whose constitutions have been rearly ru ined by the 'all infallible" mineral preparations of the day, will bear me witness, that the Life Medicines, and such only, are the trile variety of manening ood health.

GENERAL REMARKS RELATIVE TO MOF FATSLIFE PILLS AND PHŒNIX BITTERS. These medicines have long been known and appre-ciated, for their extraordinary and immediate powers of restoring perfect health, to persons suffering under fixing every kind of useese, to which the human frame is liable.

frame is liable.

In many him fred's of certificated instances, they have eve rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had atterly failed; and to many thousands they have perma lently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, inded, has their efficacy invariable and infallibly neved, that it has appeared scarcely less than minculous to those who were unacquanted with the beautiful philosophinal principles upon which they are compounded, and upon which they consequently act. It was to their minifest and sensible action in purifying the springs and channels of life, and en using them with renewed tone and vigor, that they were indebted for their name, which was bestowed upon them at the spontaneous request of have perma lently secured that uniform enjoyment of bestowed upon them at the spontaneous request of several individuals whose lives they had obvious

And how is it expected that they will secure health thinks stomach and bowels? Why by enabling the one to disperse tood, and the other to carry off what is left after, the nutriment is extracted, in connection with the surplus of bile, and the foul humors of the blood the surplus of bile, and the foul humers of the blood, mucous membranes, and stompach. And they accomplish these great feats of medicine in the most simple way imaginable. The APERIENT FAMILY PRILES, if the stomach be affected with wind, bile, or coated collections, clear it out, by a natural but a most insensible solvent action, and cleanse, the whole alimentary canal, without griping, and leaving it as free without debility, as nature ever designed it to be.—
They, do not take the skin off the stomach and bowels, and leave, them like a nieze of red velue; as all obs.
