

POTTSVILLE.

WEDNESDAY MORNING FEB. 7, 1838.

3¢ Pamphlets, Checks, Cards, Bills of Lading and Handbills of every description neatly printed at the office of the undersigned printer.

COAL MEETING.

A meeting of the Individual Coal Operators, will be held at the Pennsylvania Hall, this evening, Wednesday February 7th at 7 o'clock, on business of import...

The large space occupied by the County Statement, has crowded out a number of articles intended for this paper.

Individuals vs. Companies.

It is a notorious fact, that of the 53,000 tons of coal mined in Schuylkill County in the year 1837, 450,000 tons were mined by Individuals, who do not possess a capital, engaged in the business, of more than \$300,000 united. This quantity is greater than the quantity mined by all the Coal Companies in the State of Pennsylvania, with a capital of several million of dollars, during the same period. Yet the individuals are to be driven from this region and their places supplied by a few Coal Companies, to benefit the Coal Trade of the region.

Meetings of Miners and Labourers.

A very large meeting of Miners and Labourers, the bone and sinew of the region, was held at the Hotel of Edward O'Connor, on Monday last. Had an earlier and more general notice been given, the number in attendance would have been much larger. In fact as soon as it was known that a meeting was to be held, the Miners and Labourers immediately quit work at their respective collieries, and repaired to the place of meeting. The object of the meeting was to adopt measures to prevent the increase of coal companies in our region. The laboring classes feel a very deep interest in this subject, and their unanimous voice is against any such increase. Indeed the whole population of our region, without distinction of classes, miners and laborers, colliers and boatmen, merchants and mechanics, all with one unanimous voice exclaim against the further introduction of monopolies amongst us.

At Port Carbon one of the largest meetings ever held in that place, was also held on Monday. A very strong feeling of excitement on the subject of coal companies was manifested. The meeting was addressed by several individuals, in the English, German, and Welsh languages. The proceedings will be found in another column.

At Minersville, a meeting of the laboring classes was also held on Monday, the proceedings of which have not yet reached us. We have no doubt, however, that it was well attended.

The laboring classes call upon the People's Representatives to protect them against the grinding system of oppression, under which they must inevitably suffer if coal companies are permitted to drive out individual competition from the region. They ask the legislature to protect their labour and industry from the rapacity of bodies without souls. They have already suffered much under the withering and blighting influence of monopolies, they therefore justly dread their further increase—they know that the wages of the poor man, if subject to the arbitrary will of the agents of monopolies, must be reduced to the lowest possible point consistent with a bare subsistence; and that even this subsistence will be rendered precarious and uncertain—that they will be obliged to toil late and early, and incessantly, without being able to lay up a dollar for the benefit of themselves and families at the end of the year; and therefore, that while they eat their bread in the sweat of their brow, they have nothing to cheer them on their way, and nothing to stimulate them to future exertions. These are the views of the laboring classes; and they are undoubtedly correct and will no doubt receive the attention to which they are entitled from the representatives of the people.

The Governor performed a sort of miracle in casting out Ten Devils of Monopolies from the legislature! Will that honorable body suffer itself to be again possessed? Shall a single spirit of darkness triumph over it? For the honor of the old Keystone we trust not!

The Offerman Mining Co.

We have seen this monopoly three times before our legislature. It originated at the session before the last, and appeared under the disguise of the Cataract Company. Most of our readers must recollect the "Old Cataract," and what a noise it made amongst us. It however failed. The legislature could not swallow the Cataract. The next appearance of this monopoly was in the disguise of the Buck Ridge Rail Road and Mining Company, with a capital of \$350,000, and a term of twenty years; to operate in the county of Schuylkill. The means by which this monopoly passed through the legislature are obvious enough! It stood at the head of ten other monopolies, all incorporated in the same bill—it was log rolled through the House—it was in a crowd or mob of

monopolies. At length the mob found its way to the presence of Governor Ritner, and he put his veto on every one of them, including the famous Buck Ridge alias Cataract Company. It was supposed that this upright, manly, and independent blow would have destroyed the monsters at once and forever. Not so!—one of the monsters has again reappeared under the title of the Offerman Mining Company. This is the old dog with a new name. It seems to us not a little extraordinary and derogatory to the dignity of the Senate, that this body should have omitted to reconsider the bills voted by the Governor, according to their constitutional duty. This was an omission that cannot be accounted for in any other way, except that the members were willing to favour the re-introduction of these bills. We are truly surprised to see that the feeling of monopoly has obtained such a foothold in the Senate.

We protest, in the name of all the inhabitants of our region, against this odious re-elected monopoly, which is to be located in our region, by whatever name it may be supported. Let it bribe and corrupt whom it will, it shall never bribe or corrupt us. We denounce it as "A monster of so foul a mien That to be hated needs, but to be seen."

Charles Frailey, Esq. The conduct of this gentleman, as a Senator, has excited very strong feelings of animadversion among individuals of all parties in the county. They have looked upon his course in relation to the Offerman Mining Company, as at direct war with all his former professions and principles. As the opponent of coal companies he was elected to the legislature. He had previously proclaimed his opposition in county meetings, and both by words and actions, as much as in him lay, pretended to be the uncompromising enemy of monopolies. So earnest and sincere in his opposition was he believed to be, in this region, that, but a few years since, he was sent on to Harrisburg to oppose them, his expenses paid, and time compensated for by the voluntary contributions of individuals. That this man should turn round and smuggle through the Senate the Offerman Mining Company, has excited feelings of indignation, regret, and astonishment. Our whole region is now up in arms against him; the mechanic, the laborer, the merchant, and the collier, with one voice stigmatize him as a recreant and a traitor.

The Re-emption (Land) Bill, as it is called, has passed the U. S. Senate by a large majority. It is an administration measure to gain popularity in the West. Henry Clay opposed it on principle—but Daniel Webster voted for the Bill, as a matter of necessity under existing circumstances. Mr. Calhoun also opposed the Bill.

At the special election in the city of Philadelphia on Friday last, to supply the vacancy in the legislature, occasioned by the death of Mr. McIlvaine, Henry S. Spackman, the Whig candidate received 3,637 votes—scattering 318.

It is a notorious fact that Van Buren's Sub-Treasury Scheme, is more strongly denounced in Administration papers than those of the opposition. Among the number is the Richmond Inquirer, the organ of the party in Virginia. The editor of this paper declares it to be one of the most despotic measures ever brought before the American people.

Mr. Rices has introduced his substitute for Wright's Sub-Treasury Bill into the Senate. In the House Messrs. Claiborne and Gholson, have been turned out of their seats—and the resolution offered by Mr. Howard declaring "that Messrs. Frentace and Word are not members of the 25th Congress," was under consideration. The matter will probably be referred back again to the people of Mississippi.

Henry Clay has declared that he will oppose Senator Wright's odious Sub-Treasury Bill with all the power that God has invested him with.

Canada.—A bill has passed the Parliament of Upper Canada, confiscating the property both real and personal, of all persons who left the country since the premeditated attack on Toronto by the patriots, and who do not return forthwith, and take up arms for Colonial Government. The property confiscated is to be appropriated in paying the expenses of the war. One section declares "that no alien shall be permitted to prosecute his business, or have his property protected, unless he repairs to the Province; and also takes up arms."

The Reform Convention not being able to transact all the business before them, have rescinded the resolution to adjourn on the 2d inst and fixed upon the 22d inst. for adjournment.

Sub-Treasury.—Mr. Johnson has introduced resolutions into the House of Representatives at Harrisburg, requesting our representatives in Congress to vote against the Sub-Treasury System. Mr. Johnson is a Van Buren man.

South Carolina is the only State whose legislature has approved of the Sub-Treasury System. I think she will again stand alone in her glory, as she did a few years since in her schemes of Nullification.

Coole's Circus, together with all its contents, has been destroyed by fire in Bakinore. Loss estimated at \$120,000.

GREAT MEETINGS OF MINERS, MECHANICS AND LABORERS.

At a large meeting of Miners and Laborers of Pottsville and its immediate neighborhood, this 5th day of February 1838, at the house of Edward O'Connor, to express their sentiments and opinions in regard to a Bill lately passed by the Senate of Pennsylvania, granting a Charter to "the Offerman Coal Company," and hearing that several other Coal Charters are applied for at the present Session of the State Legislature—MICHAEL NUGENT was called to the chair, and Thurewell Russel and Richard Lee appointed Secretaries—and on motion it was Resolved, That Ralph Lee, John Shaw James Curington be a committee to draw up resolutions, who, after retiring for the purpose, returned to the meeting and reported the following which were unanimously adopted:

Resolved, That we have seen with great anxiety and apprehension that the legislature are about to grant Charters to more Coal Companies, a bill granting a charter to "Offerman Coal Company" having passed the Senate of Pennsylvania.

Resolved, That we, the Miners and Laborers of Schuylkill county, are determined not to countenance in any shape or form the Monster Monopolies that are and want to be located within the honest and industrious borders of this county.

Resolved, That we will patronize those of our citizens who have with courage and zeal, bid defiance to the united Companies that are here among us, and who have done more for the Miners and Laborers by the liberal wages they have always given us than any incorporated Company.

Resolved, That we pledge ourselves at all times by our humble efforts to stop by all legal means, any thing in the shape of a Company—we want them not, we can do better for ourselves without them.

Resolved, That we will at any time lend our aid and unite with our employers to suppress every attempt that may be made here, as well as elsewhere, for the purpose of thrusting any more Companies among us.

Resolved, That we will unite one and all to set our hearts, hands and heads, as with adamant, at open war and hostility against every "monster," though he may come prowling amongst us with ten thousand heads.

Resolved, That we consider the Legislature of our State, most particularly bound in duty to protect, foster and promote the honest Labour and Industry of the great mass of the community, who look to them to guard their interests whilst hard at work to maintain themselves and families, and to discourage and discountenance all speculation and schemes of men of desperate fortunes, who strive to enrich themselves by legislative enactments of empty bubbles and fancy stockjobbing, tending to keep things always unsettled and under excitement, and calling upon us to sacrifice our time and hard earned wages to protect ourselves from these repeated efforts of gambling speculators, to dupe the public and unsettle our business, in which the whole state is equally interested with ourselves—every branch, class and occupation of the State receiving a benefit from the prosperity of the Coal Trade.

Resolved, That the following Memorial be forthwith printed and signed by all the Miners and Laborers in Schuylkill county, and sent immediately to the Legislature.

To the Honorable the Senate and House of Representatives of the Commonwealth of Pennsylvania: The memorial of the undersigned Miners and Labourers inhabitants of Schuylkill county respectfully represents:—That having observed with the utmost detestation a Bill, purporting to be the Offerman Mining Company, has been placed before your honorable bodies, and to which is granted privileges ultimately at hostility with the interests of Schuylkill county; we the undersigned respectfully present this our remonstrance against the passage of said Bill by the House of Representatives, and against all others of a like cast and character, as being at entire variance with our honest endeavors to support decently our families with the requisites of life. The undersigned well know, by experience, that all coal companies are entirely subservient of individual enterprise, and especially so within the precincts of Schuylkill county; and, moreover, the Miners and Labourers have, generally speaking, realized a better competence for their labor from individual colliers, than from the companies located in Schuylkill county, and know full well that these companies have for their object the depression, in a great measure, of the honest wages of a large number of the inhabitants of Schuylkill county; and conclude with submitting this memorial to the consideration of your honorable bodies.

Resolved, That we congratulate our friends throughout the coal region for the stand they have taken against all Coal Companies.

Resolved, That the proceedings of this meeting be signed by the officers and published in the Miners' Journal and Free Press. MICHAEL NUGENT, THUREWELL RUSSEL, RICHARD LEE, Secretaries.

PORT CARBON MEETING.

At a large and respectable meeting of the Miners and Laborers engaged in the different Collieries on the Mill Creek and Schuylkill Valley rail roads, HENRY D. RICHARDS was called to the chair, and William Gould appointed Secretary.

The object of the meeting was stated from the chair in an able and lucid manner, in the English language, and the meeting was addressed in the German language by H. Giesenheim, and in the Welsh language by David Williams; whereupon it was unanimously resolved, as the sense and plighted faith of the coal market of this county, it is unwise and inexpedient to incorporate any more Coal Companies for the purpose of mining and selling of coal, as the tendency of all such companies are to monopolize the valuable coal property of this region, and to drive out individual enterprise and competition, and erect in the stead thereof a nominal oligarchy, under which many of us have suffered too severely in this country, ever to wish to be ruled by it in this.

Resolved, That a committee be appointed from each of the Collieries in this vicinity, for the purpose of drafting a suitable remonstrance to the legislature, and obtain signatures to the same. On motion, the following persons were duly appointed:

Port Carbon—Henry Richards, Samuel Rodgers, Patrick Freeman, John Leisher, Joseph Allison, Daniel Roebuck, Thomas Bragh, Wm. Stevens, Bear Ridge & Belfast—Robinson Kay, Leonard Bright, William Thomas, Belmont—James Biary, Isaac Bailey, Thomas Mankell, Henry John, William Davis, William Zimmerman, Adam Hartwig, Eagle Hill—Joseph Coen, David Foley, Hubert Collins—David Williams, John Evans, New Philadelphia—Conrad Bobb, Samuel Buyer, St. Clair—David Price, Lewellyn, George Wagstaff, Ravensdale—Michael Foley, New Castle—George Payne, William Rhoads, Valley Furnace—H. Geisenheimer, D. Shollenberger, J. Umbatrocher, Mid-dleport—Edmund James, John Burns, Tuscarora—James Palmer, Thomas Palmer. On motion Resolved, That the proceedings of this meeting be published in the Miners' Journal, and all others favorable to the cause of individual enterprise. HENRY D. RICHARDS, Chairman.

Attest—William Gould, Secretary.

A MEETING

of the committee appointed in the foregoing resolutions, will be held at the house of James Lang, Port Carbon, on Wednesday (this afternoon), at five o'clock.

New Name.—The Administration Sub Treasury men in Virginia are called Sub servients, by the Fredericksburg Arena. We should not be surprised to see this name stick like a burr.—Alexandria Gazette.

The bill permitting the circulation of small notes by the Banks of New Jersey has become a law.

We learn from a passenger on a steamboat which left Louisville yesterday, says the Cincinnati Express of Saturday last, that just before the boat started, a crowd had collected about the Northern Bank of Kentucky, and it was rumoured that two men were killed in it.

New Hampshire.—We learn from New Hampshire that the Whigs are actively engaged in the work of preparation for the annual election, which takes place in about six weeks, and that there is a fair prospect that they will triumph.—The whole State seems to be in arms. County, district, and Senatorial conventions, and town meetings, are held every week, and the best spirit prevails in them. Political excitement is something of a novelty in that hill-ridden region. It is now about eight years since there was any trial of the strength of parties. In 1832, the Whigs made some exertions to put down the dynasty of Hill & Co., but they were beaten by over 6000 majority, and since that period they have had no organization.

A vigorous and united effort is now making by the Whig party to carry the State. If Isaac Hill is not overthrown, we shall be much disappointed. It is also probable that the Whigs will succeed in obtaining a majority of the popular branch of the Legislature. They will elect their representatives in every large town by handsome majorities. Concord will be redeemed, and will Down, Nashua, and Portsmouth. The probable complexion of the Senate is more doubtful. If New Hampshire abandons the administration, the divorce between Mr. Van Buren and the people will be complete.—Boston Atlas.

Sub Treasury Illustrations!—The Secretary of the Treasury in obedience to a Resolution from the House of Representatives, has made a Report which goes far to show how the Sub-Treasury Scheme would work. In this Report we have the names of Collectors, Receivers, &c. &c. of the Revenue, who are defaulters, within the last two years, to the tune of SIX HUNDRED THOUSAND DOLLARS!

In the Court of Common Pleas, a few days since in the case of William Dougherty vs. the Bank of Penn Township, for the recovery of five dollars penalty imposed by the act of Assembly passed the 12th of April, 1835, the defendants having paid to the plaintiff certain small certificates of loans by different incorporated districts—Judge Randall delivered the opinion of the Court, "that the individual or corporation who pays away small bills, not of his or their own creation, is and are in no way liable to the penalty.—Phil Paper.

The Assembly of Ohio, by a vote of 39 to 12, have passed a bill repealing the Act of last session which prohibited the circulation of U. S. Bank bills.

Great Project of Navigation by Steam.—In the British House of Commons on the 15th December, in answer to a question by Mr. Macanross, Mr. Baines was understood to say, that a "plan for a large communication by steam, with the colonies generally, was at present under the consideration of Government—that the plan was not confined to the West Indies alone, but that it had reference to the whole system of inter-colonial communication."

MARRIED

On Sunday evening the 4th, inst. by Wm. Bostlyshell Esq. Mr. Wm. MARSH of Port Carbon, to Mrs. MARY GOODBURN of the same place.

On Sunday the 4th, inst. by the same, Mr. Jas. McGinnis of Port Carbon, to Miss REBECCA MCCARTY, formerly of Northumberland county, Pa.

At Minersville, on the 3d, inst. by the Rev. Thomas Sovereign, Mr. HENRY PRIOR to Miss SARAH WILLIAMS.

St. David's Day.

The Welsh Society in Minersville, will celebrate St. David's Day, on the first of March 1838, at the House of Mr. John Leisher, and respectfully invite their country men to participate in the celebration. They will meet at Mr. Freeman's at 9 o'clock, A. M. and at 11 o'clock a sermon will be delivered at the Baptist Church, after which they will partake of a dinner at 1 o'clock, at the above mentioned place, and the remainder of the day will be devoted to festivities, becoming the occasion of the meeting.

By order of the WELSH SOCIETY, Feb 7

REVIEW OF THE MARKET.

Pottsville, February 7, 1838. WHEAT FLOUR, by the load was worth on Friday 88 00. WHEAT 1 50 per bushel in demand. RYE FLOUR 2 50 per cwt. in demand. BUCKWHEAT FLOUR 2 50 per cwt. in demand.
