

tricts in question, the Superintendent would advise that such citizens as have been heretofore opposed to it, but who are candid and intelligent men, should be elected Directors. They will have it in their power to keep down the amount of taxation, and to test the experiment in such a manner as to prevent any imposition of partiality for the system. Such men, representing the feelings of the majority of the District, will carry public confidence along with them, and the result whether for or against Common Schools, will be satisfactory to the District.

JNO. H. BURROWS, Sup't Common Schools. SECRETARY'S OFFICE, Harrisburg, January 13, 1838. Feb 10

DIED

In this borough, on Tuesday evening last, Capt. HENRY E. NELSON, in the 37th year of his age.

A STATED Meeting of the Pottsville Fire Engine Company will be held at the house of Wm. Mortimer, on Wednesday evening next, the 14th inst. at 7 o'clock. ELIAS DERR, Secretary. Feb 10

St. David's Day.

THE Welsh Society in Philadelphia, will celebrate St. David's Day, on the first of March 1838, at the House of Mr. John P. Wainwright, and respectfully invite their countrymen to participate in the celebration. They will meet at 9 o'clock, A. M. and will be followed by a procession to the church, where the service will be performed at 10 o'clock, at which they will partake of a dinner at 1 o'clock, at the above mentioned place, and the remainder of the day will be devoted to festivities, becoming the occasion of their meeting. By order of the WELSH SOCIETY. Feb 7

REPORT

TIDE-LOCK CANAL.

PROPOSED by the owners of the soil, to be made by a company similar to the great basin at Albany, N. Y. to be cut through the marsh on the western shore of the Schuylkill, fed by the river, which will save the water works, and give to every owner of property free access to his landings, which combined, will be ten thousand feet in length, sufficient to accommodate 300 boats at the same time, as designed by FREDERICK GRAY, Engineer, Philadelphia.

The Joint Special Committee appointed by Congress, 25th February, 1837, to report on the plan proposed by the Watering Committee, to whom was referred a plan of a proposed Canal or Basin on the west side of the river Schuylkill, after having several meetings, and eliciting all the information within their reach, and duly considering the subject offer the following REPORT.

By the completion of our canal a new source of trade has within a few years developed itself, which promises to be of great importance, not only to the city of Philadelphia, but to the State of Pennsylvania. The production of Pennsylvania exclusively, is fast taking the place of Wood as the common fuel of the country—the increased consumption and importance is shown by the quantity brought down the Schuylkill Canal since its completion.

In 1835, the quantity received was 6,500 tons; in 1836 it had increased to 39,308 tons, and the demand rapidly increasing; in 1837, the quantity was 153,500 tons, generally in vessels of 100 to 150 tons, and requiring two thousand vessels to carry it off.

From the above data an idea of the importance of the trade may be formed. In fact, anthracite coal will become one of the great staple articles of Pennsylvania, and to foster and protect it would seem to require particular attention.

One of the greatest difficulties experienced by the traders in the want of convenient landings, sufficiently spacious, upon which to deposit the coal on arrival at our city from the mines. Being bulky, a very large extent of wharf is required, not only for the convenience of the numerous boats bringing it down to lay at its safety, and discharge, but also ample space to deposit it. Also, wharves for the sea vessels to lie at in receiving their cargoes.

The present improvement on the river are entirely inadequate to the great inconvenience is experienced from the crowded manner in which the sea vessels and coal boats are mixed together, loading and discharging. The location of the proposed plan is on the west side of the river Schuylkill, on the low grounds extending from the Upper Bridge to the lower end of the Alma House property, a distance of more than two miles, embracing the whole city front, as follows:

To be formed into at least two or more basins 150 feet wide, to be widened in a continuous line on the river side, also of the basin or inner side, leaving a space between the two lines of wharves, of about 150 feet wide, as a landing for coal, &c. The space to be filled up to a proper height, by the earth and mud excavated in forming the basin—to have at each end a tide lock, also one in the middle, and necessary a lift lock, through which boats can pass at all times of tide, both in and out of the basin. The locks to be thrown open as soon as the flood tide in the river rises sufficiently to open the gates freely, and admit a free passage of the water, and the coal boats in and out of the basin. The gates to remain open until the tide recedes, when the gates are to be shut, to maintain a proper height of water in the basin, so as to keep the boats afloat, never suffering it to fall more than a foot below high water mark. This arrangement in the water level removes one of the great objections experienced in discharging coal at the present landings, where it must be thrown six feet in height at low water, which in addition to the extra labour, has a tendency to break it up, and render it less valuable.

It has no connection with Fairmount Dam, and as far as the information received by the Committee goes, they have at present no reason to believe that it will have any tendency to injure the Water Works.

Resolved, that the Committee be discharged from further consideration of the subject submitted to them. All of which is respectfully submitted. JOSHUA LEFFINGWELL, JOHN P. WAINWRIGHT, JOHN R. CANTRELL, BENJ. M. HITCHMAN, FRED. FRALTY, JOHN S. WARNER, DENNIS McCARTHY, THOS. LANCASTER, THOS. DUMAS, WILLIAM RAWLE, JOHN WIZARD, CHARLES S. SMITH.

Mr. Lippincott is the President of the Schuylkill Navigation Company. Feb 10

In the Court of Common Pleas of Schuylkill County, in the matter of the estate of Michael Brizous, a lunatic.

WHEREAS, John Baechler, committee of Michael Brizous, did, on the 23d day of November, A. D. 1837, file in the office of the Prothonotary of the Court of Common Pleas of Schuylkill County, a statement of his account as committee of said estate.

Notice is hereby given to all persons interested in said estate, that the Honorable the Judge of the Court of Common Pleas aforesaid, have appointed Monday the 19th day of March, 1838, at 10 o'clock in the forenoon, for the hearing of the account, and for showing cause why the said account ought not to be allowed, and in default thereof, the same will be confirmed.

Witness the honorable Calvin Blythe, President of our said Court at Orwigsburg, the 7th day of February, A. D. 1838. LEWIS AUDENRIED, Prothonotary. Feb 10

Valuable Coal and Timber Land FOR SALE.

SITUATED in Schuylkill county on the head waters of the little Schuylkill river, and in the first coal region of Beaver Creek, containing 229 Acres and 14 Perches, street measure; this land is covered with White and Yellow PINE TIMBER, said by Judges to be of the first quality, the little Schuylkill rail road runs directly through the above described tract of Land, and offers a safe and convenient passage to the Philadelphia market. For further particulars address the subscriber in Columbia, Lancaster county, Pa. F. A. THOMAS. Feb 10

Office of the Schuylkill Navigation Company. Philadelphia February 5, 1838.

The Board of Managers have this day declared a dividend of 12 1/2 per cent, or 86 1/2 cents on the capital stock of the Company, for the last six months, which will be paid to the stockholders by their legal representatives on and after the 15th inst. CLAUDIUS HARPER, Treasurer & Secretary. Feb 10

Coal Wharf.

Comfort and Convenience TO THE HEALTHY AND SICK.

The subscriber respectfully informs his friends and the public at large, that since his return from Europe, he has introduced a new and different article in the manufacturing of Elastic Mattresses in this Borough, and that he himself, without fear, the accusation that he is a Boston and Charleston, will be able hereafter to make such mattresses as not to be inferior to any work of this kind, in reference to their beauty, solidity, and durability, and people will certainly be convinced of the comfort and saving of their health, which these articles afford, principally when they are somewhat sick in the family. Besides the subscriber, knows the old adage, "the work must give credit to its maker," and he therefore, very politely invites those wishing to get an article of this description; to come and examine for themselves, one of the said Mattresses; just now finished; that they may be convinced of the truth of his assertions. HENRY MEYER. Reading, Jan. 18, 1838. 4-3m

P. S. Persons wishing to buy Elastic Mattresses, of the description aforesaid, will please apply to the subscriber, a few doors above Feather's Store, in Reading, where a list of subscribers is open to the public, as the manufacturing there, wants some time. The Mattresses will not be delivered before May next.

The undersigned has, at the request of Mr. Henry Meyer, examined his newly invented "Double Spring Elastic Mattress." Its superior elasticity renders it truly a luxury for comfort; and to the sick especially. Such as are long confined to a horizontal posture, it promises to prove invaluable. Its permanent smoothness will supercede the necessity of removing the patient "to make his bed," while its elastic quality appears well calculated to obviate in a great degree or entirely prevent, the lodging so apt to occur in case of long confinement. ISAAC HESTER, M. D.

I fully concur in the opinion above expressed, in regard to Mr. Meyer's "Double Spring Elastic Mattress." JOHN P. HESTER, M. D.

Having carefully examined Mr. Henry Meyer's "Double Spring Elastic Mattress," I concur in the above opinion, believing it to answer all the purposes intended. JOHN B. OTTO.

I have examined Mr. Henry Meyer's "Double Spring Mattress" with care, and I would recommend it to all persons, and especially to the sick, as it would be a great advantage to them. JACOB MARSHALL.

Having carefully examined Mr. Henry Meyer's "Double Spring Elastic Mattress," I fully concur in the opinion expressed, in the foregoing certificate. A. H. WITMAN.

I have examined with care Mr. Meyer's "Elastic Mattress," and fully concur in the opinion above expressed, as to its usefulness and general good qualities. H. H. MÜHLENBERG.

At Mr. Meyer's request, I examined his "Elastic Mattress," and concur in the favorable opinions expressed by the above named gentlemen. SOLOMON G. BIRCH.

Important Discovery.

The subscriber has discovered a method by which the virtues of that valuable root, THE SANSAPARILLA, may be extracted without losing any of its medicinal properties. This medicine is prepared after a receipt of the Medical College of the University of the Faculty as the best formula for the preparation of the fluid extract of Sansaparilla. This Extract may be given, with perfect safety to children, and is unquestionably efficacious in all cases of a purifier of the blood, which in all cases will greatly alleviate and in many entirely cure the following diseases: Obstinate eruptions of the skin, Pimples or pustules on the face, Bites which arise from an impure habit of body, Scaly eruptions, Pains in the loins, Chronic rheumatism, Tetes, Scrofula, or King's evil, White Swellings, Syphilitic symptoms, And all disorders arising from an impure state of the blood, either by a long residence in a hot and unhealthy climate, or the judicious use of mercury. I have thought it necessary to attach a few copies of this beneficial extract, from persons well known in the county, in reference.

Reading, July 13, 1837. We the undersigned, having used the Compound Fluid Extract of Sansaparilla, (prepared by George W. Oakeley) in our families, most cheerfully recommend it to the public, as a cheap and efficient medicine, in diseases arising from impurities of the blood. JOHN MILLER, WM. H. MILLER, RICHARDS, WM. RHOADS.

This is to certify that I was for two years afflicted with an obstinate impetiginous affection in one of my legs, which broke into numerous ulcers, for which I tried various remedies, which but increased the disease, when I was recommended to try Mr. Oakeley's preparation of Sansaparilla. I did so, and after using several bottles I am happy to say that the ulcers are entirely removed and my leg healed. Witness my hand and seal this 16th day of August, 1837. JOHN R. COLLIER, Reading.

This certifies that my little son, about 8 years old, had suffered a long time, from extensive sores on the right knee and leg, (supposed to have been white swelling) which I found impossible to heal by any means. I was recommended to use Mr. George W. Oakeley's Compound Syrup of Sansaparilla, eight bottles of which not only healed the sores, but restored to my child a healthy habit of body, and cured in consequence of this medicine. W. CATHERINE BINGHAM, Reading, Penn. 21st Reading.

The above case was presented to me, both before and after the use of Mr. Oakeley's Syrup of Sansaparilla, and I have no hesitation in believing
