GENERAL REMARKS RELATIVE TO MOF-PAPPLIFE PILLS AND PHŒNIX BITTERS. "Time medicines have long been known and appreciated, for their extraordinary and immediate powers of restoring parfect health, to persons suffering under manify every kind of oisease, to which the human frame, stated in the human frame, stated in the control of the control o

Is many hundreds of certificated instances, they have ever rescued sufferers from the very verge of an instance, they have ever rescued sufferers from the very verge of an instance, and the sufference of the day, had atterly failed, and to many thousands they the day, had atterly failed, and to many thousands they had the sufference of the life, without which life itself is but a partial blessing. So great, inded, has their efficiely invariable and the failed proved, that it has appeared scarcely the state instructions to those who were unacquainted with the beautiful philosophical principles upon which they, are compounded, and upon which they are compounded, and upon which they consequently act it was to their manifestand sensible action in purifying the springs and channels of life, and chaining them with renewed tone and vigor, that they were indebted for their name, which was bestowed upon them at the spontaneous request of several individuals whose lives they had obviously saved.

The proprietors rejoice in the opportunity afforded by the universal diffusion of the daily press, for placing his VEGETABLE LIFE PILLS within the landwester and reach of every individual in the com-

A STATE OF THE PARTY OF THE PAR

where to till appearance no human means could save life, have patients, by the use of these Pills, been restored to good health, the devouring disease having been completely eradicated.

Dr. Wm. Brandreth was so fully convinced of the truth of the above simple theory, that he spent 30 years in experiment and laborious research into the modical properties of the numerous plants composing the Vegetable Kingdom; his object being to compose a nodicine which would at once purify, and produce by specific action, a removal of all by humors from the blood by the stornach and bowels, as by the continuation of the use of such a medicine, such humans are sure to be carried off, and the blood assume a state of parity; and whoever takes these Pills, and perseveres with them, will be satisfied that Dr. William Brandreth fally attained his philanthropic object. It is now an absolute and known fact, that every disease, whether it be in the head or feet, in the brain or meanest member; whether it be an outward ulcer, or on inward abscess, are all, though arising from many causes, reducible to this grand effect, namely, impurity of blood.

Swaim's Panacea. A Sthe intemperance and luxury of the age are the hastening the 'ravages of scorbutic complaints and rendering the blood more impure; and as themsends have destroyed their constitutions by neglecting to apply the proper remedies—to secti, Swaim's Pauacea must be, and has been; more than doubly valuacea must be, and has been; more than doubly valuacea for the section with the section of the sec to apply the proper rements—to such, swam "rainacea must be, and has been; more than doubly valuable as a certain and effectual means of restoring them
to perfect health and vigor. Few families are wholly exempt from scorbutic affections, which exhibit various symptoms, as eruptions, ulderations, debility,
loss of appetite and dejection call arising from impure
blood, and if not properly attended to, produce thegreatest injury to the constitutation, and may be im

its proprietor may point out the causes of its superiority, without incurring the suspicion of invidiousness, in instituting the comparison.

The CAMOMILE and FAMILY APERIENT PILLS; manufactured by Dr. William Erans, at 100 Chatham street, do not require his explanation of their acknowledged efficiety—for the most eminent physicians throughout the United States will freely, if appealed to, state the reasons which have induced them to recommend them, so extensively and warmly as they do. And those reasons are, that these indicious medicines never injure even the most delicate constitutions, and have, in almost every individual case for which they are prescribed, a marked, an evident, a truly happy and permanent efficiety. Physicians, moreover, see that they are not offered to the public upon any quack theory of purifying the blood; to the utter destruction of the stomach and howels. Purify the blood from all discused humors, they undensially do; but not by destroying those vicers by which alone the blood can be sustained. They are compounded upon a theory which supposes a stomach to be a very essential agent to health; and food, well digested, to be a valuable friend to flesh and blood. They do not purify men to ghouts, and make them look like beings too refined to remain long in this world; but they make them as human as possible and fit to encounter the hardships, and fulfil the occupations of a sublumary iffe. They do not make a vicelent purgatory of shis life, to prepare men the faster for another. They proceed up on the supposition that the blood, muscles, nerves, organs, excretory and secretory gland, muccous, and tegumentary membranes, bones and brains, of every human being require to be supplied with nourishment from as healthful a stomach as can be made and kept; and upon thy doctrine that unless the stomach and bowels are in good order, the blood and every other part of the system will be in disorder.

And how is at expected that they will secure health

that unless the stomach and bowels are in good order, the blood and every other part of the system will be in disorder.

And how is it expected that they will secure health to the stomach and bowels? Why by enabling the one to digest food, and the other to carry off, what is left after the nutriment is extracted in connection with the surplus of bile, and the foul himory of the blood, mucous membranes, and stomach. And they accomplish these great feats of medicine in the most simple way imaginable. The APERIEAT FAMILY PILLS, if the stomach be affected with wind, bile, or coated collections, clear it out, by a natural but a mosaimensible solvent action, and cleanse, the whole alimentary canal, without griping, and leaving it as free without debility, as nature ever designed it to be—They do not take the skin of the stomach and bowels, and leave them like a piece of red velvet; as all physicians know the strong drastic pills do, but they take nature kindly by the hand without crushing her lingers. They cleanse every thing, without imparing or injuring any thing.

When this is effected, as it usually is by the use of a few of the FAMILY APERIEAT PILLS, then come the celebrated CAMOMILE or TONIC PILLS. to strongthen a stomach and bowels which before, per haps, weak and foul because they were weak, and endows them with strength to perform their important functions, without the aid of physic. The (A-MOMILE FLOWER, when its valuable principles are chemically extracted, is acknowledged by all physicians, in every age, to be the best vegetable tonic known in the vegetable kingdom of nature to equal it withing that is at once to harmless and so vigorous!

Mr. Cakeley,

Siri-1 to half dear it my duty to let you know that the

Siri-I consider truy duty to let you know that the use of the half dozen bottles of your valuable Sarsaparilla finit I got of you in June last, has initially healed my leg, the Poctor told me it was of a scrolulous character, and thouse of your medicine would probably benefit it. The five bottles were not siken before it was healed, but I took the stath to make the cure certain it is now better than two months ince I used any and there is no appearance of a return my physician thinks the cure perfect. Yours do.
