They denot purify men to ghosts, and make them flook like beings too refined to remain long in this world; but they make them as human as possible, and fit to encounter the hardships, and fulfi the occupations of a sublunary life. They do not make a violent pargatory of this life, to prepare men the faster for snother. They proceed upon the supposition that the blood, muscles, nerves, organs, excretory and secretory gland, mucuous and tegumentary membranes, bones and brains, of every human being require to be supplied with nourishment from as healthful a stomach as can be made and kept; and upon the doctrine that unless the stomach and howels are in good order, the blood and every other part of the system will be in disorder.

disorder.

And how is it expected that they will secure health to the stomach and bowels? Why by enabling the one to digest food, and the other to carry off what is left after the autriment is extracted, is connection with the surplus of bile, and the foul humors of the blood, nucous membrares, and stomach. And they accomplish these great feats of medicine in the most simple way imaginable. The APERIENT FAMILY PILLS, if the stomach be affected with wind, bile, or coated ellowing clean it out, but a mastern but a most in-

way imaginable. The APERIENT FAMILY PILLS, if the stomach be affected with wind, bile, or coated collections, clear it out, by a natural but a most insensible solvent action, and cleanse, the whole alimentary canal, without griping, and leaving it as free without debility, as nature ever designed it to be.—
They do not take the skin off the stomach and bo wels, and leave them like a piece of red velvet, as all physicians know the strong drassic pills do, but they take nature kindly by the hand without crushing her fingers. They cleanse every thing, without timparing or injuring any thing.

When this is effected as it usually is by the use of a few of the FAMILY APERIENT PILLS, then come the celebrated CAMOMILE or TONIC PILLS, to strengthen a stomach and bowels which before, per haps, weak and foul because they were weak, and endows them with strength to perform their important functions, without the aid of physic. The CAMOMILE FLOWER, when its valuable principles are chemically estitucted, is acknowledged by all physicians, in every age, to be the best vegetable tonic known in the science of medicine—There is nothing known in the science of this the proprietor of thy recowned pills that are made from its purest particles, might quote almost innimerable authors, both ancient and modern, if his own practice had not proved it to tens of thousands.

The effects of these nills are not only verceived in

of interest of these pills are not only perceived in an increase of apetite and general strength, but in a restoration of the body to that miversal vigor in all its functions, which indicates the return to perfectly sound health. The face, and general complexion, speak volumes in their favor, and thousands of females can testify how much they have contributed to their comfort, their complexion, and their strength when every other remedy had proved worse than useless. In nervous diseases, of all kinds, they are now acknowledged to be preemment; gradually restoring firmness of body and mund, without those annoyance and changes which other nervous remedia. less. In nervous diseases, of all kinds, they are now acknowledged to be preeminent; gradually restoring firmness of body and mud, without those annoyance and changes which other nervous remedies occasion. Happy would it, have been for many young persons of both sexes who 'a'e' now le' the silent grave, if they had learned to check the morbid tendencies of their atomach and bowels by these pure tonics and aperious, without resorting to quack remedies, the names of which are doncested, and of which they know the state of the control of the c nothing. Important Discovery The subscriber has discovered a method by which the virtues of the Calable toot,

May be extracted without losing any of its medicinal properties. This medicine is prepared after a receipt of the Madical College, a receipt recommended by the Faculty as the best formula for the preparation of the fluid extract of Sarsaparilla.

This Extract may be given with perfect safety to children; and acconcleationally offered to the public as a parifier of the blood, which in all cases will greatly alleviate and in many chatrely ourse the following diseases:

obstinate eruptions of the skin, Obstinate eruptions of the face, Pimples or postules on the face, Biles which arise from an impure habit of body,

Sealy eruptions, Pains in the bones,

Chronic rheumatis Petter, Screens, or King's evil. White Swellings,

I have thought it necessary to attach a few certificates of its beneficial effects, from persons well known in the county, as references:

Reading, July 13, 1837. We the undersigned, having used the Compound Fluid Extract of Saraparilla, (prepared by George W. Oakeley) in our families, most cheerfully recommend it to the public, as a cheap, safe and efficient medicine, in discuss arising from impurities of the blood.

JOHN MILLER. M. S. RICHARDS, WM. RHOADS,

This is to certify that I was for two years afflicted with an obstinate imperigonaces affection in one of my legs, which broke into in mierous ufcers, for which tried various remedies, which but increased the discuss, when I was recommended to try Mr. Oakeley's preparation of Serseparilla. I.did so, and affect using several bottles. I am happy to state that the ulcers are entirely removed and my leg healed. Witness my nand this 16th day of August, 1857.

JOHN R. COLLER, Reading.

This certifies that my little son, about 6 years old, had suffered for a long-time from extensive sores on the right knee and leg, temposed to have been white swelling, which I found impossible to heal, by even the aid of the most respectable medical advice, until I was recommended to use Mr. George W. Oakeley's CompoundSymp of Sarsaparilla, eight hottles of which and only healed the sores but perfectly restored the child's health which had suffered much in consequence of this affection. CAPTHARINE BINGEMAN.

The above case was presented to me, both before and atter the use of Mr. Oakeley's ayrup of Sarsaps rills, and I have no besitation in believing that it was the agent of his restoration.
