Fire.—On Thursday morning last, a new frame building, not finished, belonging to Wm. Hoop, carpenter, was consumed by fire together with a number of his tools, and a quantity of lumber which were in the building at the same time.

The Loco Foco's have a bribery case on hand in the House of Representatives, at Harrisburg. It appears that Mr. Reynolds of Westmoreland, a loco foco, is charged with attempting to bribe Mr. Thompson, of York County, who is a conservative, to vote against the Instruction Resolution, by offering to loan him a \$1000. The case is under investigation.

On Monday next, the two Conventions to nominate candidates for Governor will meet in Harrisburg. Joseph Ritter will undoubtedly be nominated for reelection; but who among the loco foco candidates will receive the nomination of "the Party" it is a present difficult to determine. DAVID R. POTTS and CALVIN BLYTHE, however, appear to be the most prominent candidates.

An Excellent Resolution.—We learn from Harrisburg that Mr. Pearson, of the Senate, on Wednesday last offered a resolution directing the Judiciary Committee to inquire into the expediency of requiring all incorporated rail road or mining companies which have power to construct rail roads, to furnish the State with profiles of such works, together with the reports of the Engineers.

It appears from proceedings of numerous meetings held in different parts of Schuylkill County, published in the Miners' Journal, that the citizens of that county protest in the strongest terms against the incorporation of any coal company. We are decidedly opposed to all corporations that have the least tendency to thwart and destroy individual enterprise, and the numerous irrefutable facts and arguments advanced by experienced individuals in the coal trade, appear to us sufficient to put down all future applications for incorporated coal companies.

HARRISBURG, February 26.

BANK BILL.

The House did not reach the consideration of the Bank bill to day, the morning business not being finished before the adjournment. On Saturday the adjournment of the bill, which requires the banks to resume specie payments by the 15th of May next, was adopted. It elicited but little debate upon its merits, the opponents of the bill taking but little part. Mr. Stevens remarked, that he for one would be disposed to allow the people to have all they ask for through the bank which has the charge of the bill.

This policy has been generally adopted, and the Loco have it all their own way. When they have finished, they can look upon their work and say "this is mine." The people will have an opportunity to see their benefactors, and the provisions their wisdom has designed for their benefit.—Penn Telegraph.

Important from the Frontier. It appears by the following, that the Patriots have not been disbanded—that their numbers have been considerably augmented—and that they have actually invaded Canada, if the following intelligence can be relied on.

IMPORTANT NEWS FROM CANADA. By the Northern mail of this evening, we have received the following highly interesting news from the west of war, in Upper Canada, which we hasten to lay before our readers. The letter is from our Frontier Correspondent, and its statements may be relied on.

WATKINSVILLE, February 22. Dear Sirs,—I arrived here last evening and found a high state of feeling on the state of Canada affairs. The patriot forces were concentrating at French Creek, on the western shore of the Ontario of this lake. To day it is said they have crossed over to Hickory Island, in the Canada channel of the St. Lawrence. Their number is variously estimated—from five hundred to two thousand men.

Their intended movements or point of attack is only conjectured: it is said to be Kingston by some; by others that their object is to make a stand on the Canadian ground, to give confidence to the people in favor of a revolution, and when sufficient force shall have joined the standard, then to act in the offensive, and adopt such plans as shall be thought advisable.

The people of Kingston are in a high state of excitement and anxiety. They participate an attack, and have barricaded their streets—raised tea-breastworks in front of the town on the river—keep up a vigilant police, and what force they can muster under arms. Some little apprehension is felt by the frontier towns, that an attack might be made by the loyalists in case the Patriots should have a battle, and be driven back. Orders therefore being issued, calling out militia. The prospect is, there will be stirring times here for a few days.

A rumour has reached here, that Gen. Wool has been ordered to the Sackets Harbor, which gives some relief to those whose fears have been excited about an attack from the Canadians—or rather, the Indians who have been called in to the defence of Kingston, to the number of 2 or 300.

large quantity of flour and other provisions, &c. and that it was the intention of the Patriots to proceed towards Kingston, taking possession of Prescott and villages on their onward march. The Clearland, Ohio, Adv. says, of the 31st instant, has a letter dated Detroit, Feb. 18th, in the effect that Van Remondel, Sutherland, and Fremont were then in Detroit, the first in command, and that Doncebo was also there—that the militia ordered out by Gen. Brady, had been discharged, for their supposed sympathies with the Patriots—that the associated forces embodied for the preservation of neutrality, was a company of U. S. troops stationed at Gibraltar—that the Patriot force is scattered along that frontier from 1500 to 2000 strong—and that a descent would be made by them on Canada as early as the Sunday or Monday following, in the neighbourhood of Fort Malden. The Adv. extra has also the following in a postscript:—

Detroit, Saturday, Feb. 17. Intelligence reached here this morning, that the patriots crossed over to the Canada shore last evening with a strong force. They entered the province below Malden, according to previous arrangements.

A Correspondent of the New York Gazette says:—A Southern gentleman of high rank, technically acquainted with dwelling, and approving dwelling, told me just now that he did not blame Webb's challenging Colley, nor did he blame Graves' bid said he, in such a quarrel, the expense which allowed a second fire, ought to be shared by both parties. I think so too. Mr. Colley has left an amiable wife and three small children. He was about thirty one.

To the Editor of the Miners' Journal. In looking over your paper of the 24th inst. I observed an Editorial article headed with my name, accompanied with quotations, remarks, inferences and conclusions, calculated to deceive the public, and therefore feel called upon to correct any false impressions that the article in question may have made upon the minds of the people. It is perfectly manifest, that the motives which drew forth your remarks were not so much for the purpose of attaining and promoting the interests of the coal region, as they were intended to create a collision and division among the party to which I belong. This appears self-evident, from the course pursued by you in connexion with the Whigs and Anti-masons of Pottsville, Orwigsburg, and Port Carbon, in endeavoring to get up a meeting of the Democracy of our place with a view to denounce me for having expressed my opinion relative to a matter of expediency in regard to two resolutions, passed at a meeting held at Port Carbon, over which I had the honor to preside. The means thus resorted to, I am happy to say, have not had their desired effect, as is evinced by the fact that the Democracy of Port Carbon, ever faithful to their interests, had no difficulty in discerning the plot, and frowned upon it indignantly. Should you and your party be desirous of creating a collision or division in the ranks of the Democracy of Port Carbon, against the coming election, I would advise you to call to your assistance a few more of the Whig and anti-Masonic fraternity, of Harrisburg, Orwigsburg, Portville, and Port Carbon, to assist you in devising some other plan for the accomplishment of your object. Now, sir, in justice to myself, I have only to say, that my letter to C. Frailey, Esq. contained no apology; nor did I intend it as such, either for myself, or the meeting over which I presided. As to the resolutions, save my opinion expressed of the two first, I fully coincided with the meeting, and believe that they were calculated to cause every democratic member of the legislature, who is desirous to uphold and sustain those true principals of the party for which our forefathers so ardently labored to hand down to posterity, viz. the protection of individual enterprise and industry.

WM. BOSSYSHELL. Port Carbon, March 1, 1838.
