the Schuylkill, being a much larger number than ever passed within the same period, since the road has been in operation. The largest number registered for any former week, is 1420. This certainly looks like business, and speaks volumes as to the character of our city, and the facilities afforded by our State Improvements, for trade, commerce and the products of industry. The new bridge across the Valley creek (we speak on the authority of a gentleman who examined it) answers admirably. The locomotive engineers unite in saying that they consider it a more solid and substantial structure than the old one. Though a sad disaster at the time, it is believed that nothing will be lost eventually, while better accommodations for the purposes of transportation, will certainly be insured.—*Penn. Inq.*

The Harrisburg papers give no very flattering account of the moral character of that place. Gambling, and every species of vice, prevails to an extent which we did not suppose disgraced the land of Penn. Why do her moral citizens to lerate such a state of things as it is averred exists there? With a vigilant police, properly assisted and countenanced by her citizens, those dens of vice could be broken up, and those who frequent them dispersed in 24 hours.—*Free Press.*

FROM WASHINGTON.

April 30, 1838.

Mr. Clay said he did not doubt but that he had the concurrence of the honorable Chairman that the period had now arrived when it was a very important moment in the momentary affairs of the country. Some of the Banks of Boston and New York had already resumed specie payments, and others were upon the point of following this good example. Mr. Clay hoped the example would speedily be followed, at least as far as the Banks were able, though he feared the Banks in the South Western States were not yet ready to resume. Mr. C. said he therefore wished to ascertain of the Chairman of the Committee of Finance whether there was before that Committee, or whether the Executive had any intention to bring forward, any measure of any description, other than that which now lay upon the table in the other House of Congress, with a view to aid, strengthen, and encourage the Banks in the resumption of Specie Payments. If there was no intention in the Committee, or in the Executive Branch of the Government to do any thing on this subject,—thus leaving the Banks to go on unaided in this operation,—it might be the duty of others to suggest some measure for this desirable purpose.

Mr. WRIGHT answered Mr. Clay, and said there was nothing on the subject of currency before the Committee which had been referred to them by order of the Senate, and that there was nothing on which they had not already reported. As to what the Executive was doing or intended to do, Mr. Wright said he was as ignorant as the Senator from Kentucky! He had nothing to say on that subject.

Mr. CLAY—That being the state of the case, and the Committee of Finance not having any measure of relief or any measure intended to aid the Banks in the resumption of specie payments before them, and as the Executive of the United States did not intend, so far as was known, to introduce any measure of relief, he would introduce the following Joint Resolution.

"*Resolved by the Senate and House of Representatives in Congress Assembled*, that no discrimination shall be made as to the currency or medium of payment in the several branches of the Public Revenue in debts or dues to the Government, and that until otherwise ordered by Congress, the notes of sound Banks which are payable and paid on demand in the legal currency of the United States, under suitable restrictions, to be forthwith prescribed and promulgated by the Secretary of the Treasury, shall be received in payment of the Revenue and of Debts and Dues to the Government, and shall be subsequently disbursed, in a course of public expenditure, to all public creditors who are willing to receive them."

The resolutions being read.

Mr. GRUNDY said he was disposed to make no defence or opposition to the resolution before the Senate. He would suggest to the Senator whether the resolution ought not restrict its operation to Banks in the vicinity of the places where the revenue was to be received.

Mr. CLAY said that the resolution did not intend that bank notes should be received without restrictions or without suitable regulations.—Power of discrimination was given to the Secretary of the Treasury. The discretion given to the Secretary of the Treasury would be amply sufficient to meet all cases. But this subject would come up with the resolution.

The resolution, after a few explanatory remarks, was then ordered to a second reading and laid upon the table.—*Baltimore American.*

THE CABIN OF THE GREAT WESTERN.

The New York Corporation paid a visit to the "Great Western" on Friday last. They had a most delightful time of it. Major Noah says:

The *Bijou* is the great cabin. We have heretofore exhausted language on the peerless cabins of our packet ships—our numerous highly polished and really elegant woods, probably more durable though less costly; but the display in the Great Western is really unique, and most difficult to be described. Mr. Price, editor of the Herald, who was there probably has come nearest to a faithful description, and we extract his brief remarks:

"No language is adequate to describe the splendor of the saloon, which is abounded on each side by the state rooms for the accommodation of passengers. It looks like a bower of bliss, a perfect garden of amida, with recesses in the wings, ornamented with trellice work in gilding, and with exquisite paintings in the waincoasting and pannelling, descriptive of the various scenes of romantic and pastoral life, executed by the first artists of Europe, under the superintendence of Mr. Parris, the royal academician. The sofas astern are wadded in the most luxurious manner, and every thing conducive to the comfort and ease of the passengers is consulted in a style of elegance never hitherto attempted, and only dreamed of in the descriptions of the Arabian nights, and the tales of fairy.

The furniture is formed on the model of that of Versailles, in the time of Louis XV.; the looking glasses are enclosed in oval frames of painted porcelain, inlaid with marquetry, and the most vivid colours; the fire place in the centre is a rich bronzed article, of a quadrangular shape, with a fire place on each angle, and a handsome voluted column for chimney. Every thing was in the brightest order, and designed with the most consummate taste, exhibiting the triumph of luxury when carried into execution by lavish and regardless expenditure."

From the Knickerbocker Magazine for April.

COMPLAINT OF THE VIOLETS.

BY E. L. BULWER.

By the silent foot of the shadowy hill,
We slept in our green retreats,
And the April showers were wont to fill
Our hearts with sweets:

And though we lay in a lowly bower,
Yet all things loved us well,
And the waking bee left its fairest flower
With us to dwell.

But the warm May came in his pride, to woo
The wealth of our virgin store,
And our hearts just felt his breath, and knew
Their sweets no more!

And the summer reigns on the quiet spot
Where we dwell; and its suns and showers
Bring balm to our sister's hearts, but not,
Oh, not to ours!

POSTSCRIPT.

OFFICE OF THE AUGUSTA CHRONICLE.

April 28, 5 o'clock, P. M.

Awful Fire at Charleston.

We learn with the deepest regret, by passengers from Charleston, who arrived here this evening by the Carolina Rail Road, that the city [of Charleston has been visited by one of the most awful and destructive fires that has ever visited any city in the United States. ONE THIRD OF THE CITY WAS LAID IN ASHES at the departure of the cars this morning at six o'clock, and the *fire was raging as if it would consume at least one third more.*

The fire broke out last night at a quarter past 8 o'clock, in a paint store, on the western side of King st. corner of Beresford st. The wind blowing strongly from the South West, blew the flames diagonally across King st. and at the time of the departure of the cars the whole section of the city above Beresford street, up to Society street and east of King street to the Bay was burnt down or burning.

Our informant believes it impossible to calculate what will be the ultimate extent of the fire, as it seemed in no way checked at 6 o'clock this morning.

Among the buildings consumed are a number of churches, the new theatre, the splendid hotel recently erected, and the whole market except the fish market.

A large number of houses had been blown up, but to no purpose. All the powder in the city was exhausted, and all the water in the pumps, and the people wearied with a whole night's incessant and unavailing toil, found themselves this morning, able to make but a feeble resistance to the still raging and devouring flames.—A number of persons had been killed by the blowing up of houses and throwing of furniture into the streets. The steam boat Neptune, lying in the bay, caught on fire, but it was fortunately extinguished.

This is indeed a mournful catastrophe—a flourishing city laid in ashes—her people burnt out of home and substance, and millions of property destroyed in a single night. The Insurance companies of Charleston we learn are of small capital, and will, every one no doubt be ruined, and still be unable to make good but a small portion of the losses. Hundreds of families must be utterly ruined by this general calamity.—Years cannot make Charleston what she was.

P. S. Since the above was written we have been shown a letter from Charleston, closed a little before 4 o'clock this morning, and brought up by a passenger, which confirms all the important facts stated above. It also states that the rigging of many of the vessels at the wharves had been burnt.

Evening Journal Office.

Since the above was in type, we learn that the fire raged 16 hours—12 or 1300 buildings were destroyed.—Loss estimated at 5 or $6.000,000: About 1500 families have been thrown out of houses.

ALBANY, WEDNESDAY, 5 o'clock, A. M.

ANOTHER GREAT AND GLORIUS WHIG VICTORY; EVERY WARD CARRIED!! EVERY WHIG CANDIDATE ELECTED!!

The City of Albany is purified and redeemed! Loco Focoism is prostrate! We have come out of a most desperately contested election with a triumphant majority in every Ward. Our aggregate majority in the city is within a fraction of SIX HUNDRED.

LATER FROM VIRGINIA.

The returns from Virginia so far, gives 38 Whigs, Loco Focos 15, conservatives 4, Whig gain 23—Whig loss 2:

WHIG OFFICE, Richmond,

April 30, 1838.

Dear Sir—Though I can send you but little more than the papers will give you, yet I drop you a line to say that we have certainly carried the House of Delegates. Last year, the administration majority in the House was 40, in the Senate 8. We have gained 23 in the House thus far, and lost 2. In the Senate we have lost one there being but 8 elected this year, out of 32.

We now have a majority of one in the house of delegates. There are four or five more that we expect to gain. If so, we shall have the legislature on joint ballot.

U. S. Gazette.

Mr. Kennedy is the first member of Congress elected from the Baltimore District since the reign of Jacksonism began.

We are requested to state that the Rev. Dr. M'CARTEE will preach in the New Baptist Church, Bellmont, about 2 miles from Port Carbon, to-morrow afternoon, at two o'clock.

DIED

Yesterday afternoon in the 32nd year of her age, Mrs. SARAH ANN BROOKE, wife of Samuel Brooke of this Borough.

The friends and acquaintances of the Family, are invited to attend her funeral on Sunday afternoon at 3 o'clock, without further notice.

JOHN POTT.

Manheim, April 28, 1838. 32

10.000 VERY superior havanna segars of the Principes and Dosimego brands, for sale by

feb 3 MILLER & HAGGERTY.

Upwards of 10,000 Boxes of Dr. Leidy's Sarsaparilla or Blood Pills, sold in Philadelphia alone.

A QUESTION.

Who does not know the virtues, efficacy and invaluable properties of the Sarsaparilla?

EVERY man, woman, and child that can read, can answer the above, as every newspaper throughout the United States contains accounts of the universal efficacy of Sarsaparilla, in *purifying the blood and removing from the human system all corrupt humors.*

Ask any respectable physician the question, *What is the most efficacious purifier of the Blood?* his answer will be, SARSAPARILLA.

Suffice it to say then, if all physicians recommend it so universally, *what better evidence can we have of its invaluable properties?*

DR. LEIDY has discovered a method whereby the virtue of the Sarsaparilla is obtained in a highly concentrated form, and in such manner as to make pills therefrom, *without destroying in the least its efficacy.* This cannot be done by any other person, the process is known only to Dr. Leidy, and is a discovery of his own.

These Pills are offered to the public by the name of

DR. LEIDY'S

SARSAPARILLA OR BLOOD PILLS,

compounded principally of Sarsaparilla and with which is combined ingredients (friendly to the constitution) rendering them more effectual, being gently laxative in their effects, thus carrying off corrupt humors from the system very gradually, and without producing debility or any inconvenience. Taken in sufficient quantity, however, they will purge freely, and may be employed or given to the most delicate, and even to infants, *being a safe and truly efficacious purgative, requiring no restraint from diet or deviation from regular habits or from occupation of any kind.*

These pills have been pre-eminently successful and from their convenient form, must, sooner or later, take the place of all the different preparations of Sarsaparilla, such as Syrups, Decoctions, Extracts, &c. *which are contained in bottles, liable to be broken, and are inconvenient for taking or being carried about.*

These pills have, during the past two years, been amply tested. Newspaper advertising being so very expensive, ample testimonials from numerous physicians and others accompany the directions.

They are particularly recommended in

Rheumatic affections,
General Debility,
Ulcerous sores of the throat, nose and body.
Diseases of the Liver, Skin and Bones,
Pain over the region of the heart, breast, and stomach,
Pain of the sides, along the back and spine,
Inward fevers, foul breath, a bad taste in the mouth,
Flatulency, want of appetite, costiveness, cramps of the stomach, and indigestion,
Dry and watery pimples, and pustules of the face and body,
Scaly eruptions, and blotches of the skin,
Tetter, Ringworms,
Scrofula, Erysipelas,
Jaundice, Heartburn,
Stomach Coughs, Liver complaints, waterbrash,
Sour eructations, and acidities of the stomach,
Glandular affections, as swelling and hardening of the glands of the neck, in the groins, under the arms, and along the spine, the breast, &c.

and the whole train of diseases resulting from Impurity of the blood, as also constitutional diseases produced by the use of Barks, Quinine, Arsenic, Mercury or other Minerals, also in impendencies in life, Syphilis, Lues, Venereal, &c. &c.

Price 25 Cents a Box.

Prepared only and sold Wholesale and Retail at Dr. Leidy's Health Emporium, 2nd st. below Vine, No. 191

Consumption.

READER, if you have a cough or cold, beware of their consequences. Colds generally progress imperceptibly, and insinuate themselves throughout the human system, finally settling upon the lungs and ending in consumption.

A WORD TO PARENTS.

How often is youth cut down when least expected by the consumption, and followed to their graves by parents who are in a measure the cause of their premature death, in neglecting to remedy colds when existing in childhood, looking upon them as trifling affections, and not attracting their notice until the destroyer has commenced its work and made sure of its victim. This is not a fanciful representation, for daily numerous instances occur which prove the fact.

In manhood colds terminate in the same way, but do not progress so rapidly as in youth; they should however, in both youth and manhood be early attended to, and not regarded as trifling affections, for it is a delusive idea that has no doubt shortened the lives of thousands.

DR. BECHTER'S
PULMONARY PRESERVATIVE.
(Price 50 Cents per bottle.)

Is an invaluable preparation, discovered by a regular and celebrated German physician, who has employed it upwards of fifty years in his own practice in Germany, throughout which country it has been during that time most extensively and successfully employed in Coughs, Colds, Influenzas, Catarrhs, Asthmas, Spitting of Blood, Whooping Coughs, Pain of the Breast and Sides, all affections of the Breast and Lungs, and arrest of approaching consumption.

Much may be said in praise of the above medicine, but newspaper advertising being too expensive, every satisfactory evidence will be found in all its effects upon trial, as well as numerous recommendations accompanying the directions. Upwards of 7000 bottles were sold in Philadelphia alone during the past winter, a convincing proof of its efficacy, or so large a quantity would never have been sold. The above medicines are prepared and sold only at

DR. LEIDY'S HEALTH EMPORIUM,
Second below Vine st.

PREMONITARY HINTS
AND IMPORTANT INFORMATION.

READER, did you ever see a confirmed Dyspeptic, and learn his sufferings! If not, suffice it to say, he is a pale, thin and ghastly looking object, his life apparently hanging by a thread; he is miserable and unhappy, his sufferings indescribable.

Are you much troubled with Flatulency, Costiveness, Sour eructations arising from your stomach, Occasional want of appetite, Waterbrash, a bad taste in your mouth, or foul breath, pain or a heaviness at your stomach, Sickness after eating, Headache, Disgust to your once favorite dishes, &c. If you are much troubled with any of the foregoing symptoms, bring before you the picture of the Dyspeptic, and having resolved to remedy the consequences, immediately procure

DR. LEIDY'S TONIC AND ANTI-DYSPEPTIC CORDIAL.

A never failing and efficacious remedy for
DYSPEPSIA OR INDIGESTION.
And the whole train of affections resulting from diseases of the Liver, Stomach and Intestines.

The above medicine is warranted free from mercury or other mineral preparations; it is composed entirely of vegetables, safe and easy to take, being very pleasant to the taste. It may be safely administered to young and old, requiring but moderate restrictions in diet only.

Numerous testimonials have been from time to time published; its reputation is so well known, further comment upon its virtues is unnecessary, suffice it to say, IT HAS NEVER FAILED IN A SINGLE INSTANCE. Further recommendations accompany the directions around each bottle.

☞ Price One Dollar per bottle.

Sold in Philadelphia at
Dr. N. B. Leidy's Health Emporium, Second below Vine St.—and by B. BANNAN, Pottsville.

Public Notice.

AS it appears, that because Mr. Crane obtained no patent for smelting Iron Ore with Anthracite Coal in this country, many suppose that they are now at liberty to adopt the method of smelting Iron ore with Anthracite by the use of a heated air blast; although I gave notice last year that I had a patent for smelting Iron ore with Anthracite Coal, both by the use of a cold atmospheric and a heated air blast, I would now inform the public again, that on the 14th of January, 1838, I received a letter from the Commissioner of Patents at Washington, stating: "Sir, upon examining the case of Mr. Crane's application for a patent for smelting Iron by means of anthracite, I have viewed his claim as interfering with your patent of Dec. 1833, and have given notice to his attorney of this decision."—Every attempt to smelt Iron ore with anthracite by the use of a heated air blast, is an infringement upon my patent, against which I caution and warn all men; as I shall prosecute every one infringing upon my rights, according to law.—And I further offer to dispose of patent rights for the erecting of furnaces, according to my patent, upon very moderate terms.

FREDERICK W. GEISSENHAINER.

New York, April 9, 1838. 28–6
