Who first set the ball of political proscription in motion? Echo answers, Gen. Jackson! And so truly it is.

An Honest Heart at Bottom.

About thirty years ago, a merchant in a neighboring city, (from whom we had the circumstance, though not at liberty to mention names.) had a thousand or two of dollars stolen from him.

The National Intelligencer of Friday last says: The Ten Million Treasury Note Bill (amended, however, so as to take away some of its objectionable features) has passed the House of Representatives and gone to the Senate, and will of course pass that body, with the not less sincerity for the narrow escape it has had in the other House.

TORNADO.

We find the following in the Baltimore Chronicle of yesterday. We had rain in this city about 9 o'clock, but no great addition to the wind that had prevailed during the day.

Public Defaulters.

In speaking of defaulters to the government under the administration of John Q. Adams and those under the late and present Administrations, the Louisville Journal makes the following forcible and striking remarks, which should cause the present reigning dynasty to blush:

A Rogue Caught.

An Englishman residing at Cambridge, some months since had his desk broken open, and about \$2000 in gold stolen therefrom. Suspicion falling upon a son-in-law, who was employed as under keeper at the House of Correction at East Cambridge, and it being observed that a sort of intimacy existed between him and one of the convicts, a notorious bad fellow, they were both carefully watched.

THE HOUSE THAT JACK BUILT.

A building of great size (containing 156 rooms) had been erected for the use of the Treasury Department; when lo! so soon as the walls all up, than it is discovered that they must be taken down again.

Effects of Fear.

An aged colored woman died on Saturday last instantaneously, upon hearing the shouts of the mob in the neighborhood of where she resided, somewhere in Shippen street.

Mr. Woodbury.

Gov. Hill has nominated Mr. Woodbury, the present Secretary of the Treasury of the United States, to the office of Chief Justice of the Supreme Court of New Hampshire, and the appointment will of course be ratified by the Governor and Council.

Mississippi.

The Louisville Journal of the 18th inst. says: "We have seen a highly respectable gentleman, direct from Jackson, the capital of Mississippi, who informs us, that when he left that place, returns had been received from the whole State—the returns from all the counties except Panola being official. Prentiss and Word's little more than 200. Prentiss and Word were about starting for Washington, and Claiborne had already started for Red River and Texas."

A Murder in the Interior.

A man named Miller, a mulatto, was murdered near Bonanza Island on Saturday night last, under the following circumstances, as detailed by the Harrisburg Telegraph.

A smoky house.

An unfaithful servant, a stammering horse, a scolding wife, an empty purse, an undutiful child, an aching tooth, an incessant talker, hogs that break through an enclosure, a dull razor, a pimpled face, and a top, are twice of the greatest plagues of the present day.

The Winchester Virginian wishes to know in what way the Fen Borestone here shows their hostility to banks.

Wherever they have succeeded in getting those institutions under their control they have shown their animosity by raising every wind to the masthead of the capital stock.

The Rev. C. W. Howard, of Millidgeville, Georgia, was commissioned by this State to proceed to England for the purpose of collecting its Colonial Records.

The Opeloboro Institution of Georgia, has also engaged the same gentleman to procure a complete Philological Apparatus. Mr. Howard sailed from New York to England by one of the recent packets.
