A certain Tract of Land situate in

Barry township, Schuylkill county, about 10 miles from Pottsville, and 6 from Minersville, on the Mahantango road, which runs about one mile through the tract—and Deep Creek also runs about the same distance through the same. This land was surveyed under warrants dated the 18th day of September 1792. One tract contains 349 acres 130 perches—the other 200 acres and 43 perches and allowance, and will be sold together or in small lots to suit purchasers. About 30 or 40 acres of the land is cleared, there is an orchard of good bearing apple trees on the premises.

The improvements consist of two Houses, a Barn, a good Saw Mill, and seats for at least 12 more, if required.

This tract of land is without exception the best oak timbered tract of land in the county, and a considerable portion of it first rate farming land. The East end of the tract is in the immediate vicinity of the Coal Region, and is well worthy the attention of persons engaged in making rail roads, canals, or in the Boat Building Business.

The land will be sold low, and on easy terms. Any person wishing to view the premises, can obtain any information required from John Deatrich residing on the same.

Persons wishing to purchase the whole, or only part thereof can do so by applying to either of the subscribers previous to the day of sale—but if not sold in the meantime, it will positively be sold on the day mentioned above.

The following gentlemen have seen the land, and we give them as a list of references.

Public Notice.

AS it appears, that because Mr. Crane obtained no patent for smelting Iron Ore with Anthracite Coal in this country, many suppose that they are now at liberty to adopt the method of smelting Iron ore with Anthracite by the use of a heated air blast; although I gave notice last year that I had a patent for smelting Iron ore with Anthracite Coal, both by the use of a cold atmospheric and a heated air blast, I would now inform the public again, that on the 14th of January, 1838, I received a letter from the Commissioner of Patents at Washington, stating—"Sir, upon examining the case of Mr. Crane's application for a patent for Smelting Iron by means of Anthracite, I have viewed his claim as interfering with your patent of Dec. 1833, and have given notice to his attorney of this decision." Every attempt to smelt Iron ore with anthracite by the use of a heated air blast, is an infringement upon my patent, against which I caution and warn all men; as I shall prosecute every one infringing upon my rights, according to law. And I further offer to dispose of patent rights for the erecting of furnaces, according to my patent, upon very moderate terms.
