

FEDERAL INTERFERENCE.

There is a great political contest to be fought in Pennsylvania. On it depends the fate of Martin Van Buren, and he knows it. Should he lose Pennsylvania—should Porter be defeated by the Old Farmer of Washington County—should the trained racer of the politicians be beaten by the people's old wagon horse, then "the little magician" falls "like Lucifer—never to rise again." Therefore it is that the "Globes" are so plentifully scattered over the State, and the under strappers of the party so plentifully supplied with treasury shin-plasters, to aid the cause by the assistance of "the blockhead's argument," a bezel. And by the bye, there is a vast difference in the material used by the loco focus of this season from that which they sported before the people in 1834.

Then every fellow of them had gold—Jackson gold, which they promised to the people as a currency—just for currency, as it has all run away—how they produce Van Buren shin-plasters—irredeemable paper—and this it is which they offer to bet against the old farmer. Now this continental money comes—it can come, from no other place than Washington—it is put into the hands of the loco focus here, in order that so far as the influence of a bet can go, the cause of Porter and Van Buren may both be strengthened. We call upon this state of things—to observe how closely the interests of Porter and Van Buren are connected; and we tell them that every whig who chits his vote for Porter by so much strengthens the national administration which he abhors. Nay more—every Whig who does not vote for Ritner, by that much weakens the cause which he loves.—Penn. Repub. lican.

It is stated that Mr. VAN BUREN intends this summer to visit the White Sulphur Springs, and other watering places of good repute in the Alleghanies.

We would advise him to extend his peregrination to the Hermitage, and there hold sweet communion with "his illustrious predecessor, on the downfall of "both their houses."—Balt Patriot.

SINGULAR COINCIDENCE.—The Great Western and Sirius steamers, were the two first that ever came from Europe, and now we have the pleasure of announcing the arrival at this port of the Canal boats *Great Western* and *Sirius*, from Pottsville direct, being the two first boats from that place loaded with coal, under the direction of Messrs. Snackton & Stevens, of the Camden and Amboy Railroad and Delaware and Raritan Canal Co.—Said Coal is consigned to Skymour & Matson, Greenwich, corner of King street, and is now discharging from the new pier, called *American Pier*, between Spring and Charlton streets. The Coal, it is said is a superior article, and will be sold at a much less price than ever before offered in this city.—N. Y. Star.

Dimensions of the British Queen.—The "British Queen," steam ship, intended for the American trade, was launched with great pomp in London, on the 24th ult. The number of passengers for whom accommodation is to be provided is in the whole 280. The following particulars have been published by the authority of the builders:—

	FEET INCHES
Length, extreme, from figure head to taffrail,	275
Length on upper deck,	245
Length of keel,	223
Breadth within paddle boxes,	40 6
Breadth including paddle-boxes	64
Depth,	27
Tonnage,	1,862 tons.
Power of engines,	500 horse.
Diameter of cylinders,	77½ inches.
Length of stroke,	7 feet.
Diameter of paddle wheels,	30 feet.
Estimated weight of engines, boilers, and water,	500 tons.
Do. of coal for 20 day's consumption,	600 tons.
Do. of cargo,	500 tons.
Draught of water with the above weight and stores,	16 feet.

The *British Queen* is believed to be the largest ship in the world, the length exceeding, by 35 feet, any ship in the British Navy.

The Borough of Lewisburg, in this county, which was always the hardest district against us, and at the last Governor's election gave a majority against Ritner of SEVENTY VOTES, will go for the *Old Farmer* in October. The Porter men themselves admit that it will be a tie, but we will have a small majority. Mark that—Mr. Times, how will you account for this change?—Union ed. Star.

The Bridgetown Chronicle speaks of a great eclipse of the sun, which will take place in the 18th of September between the hours of 3 and 6 o'clock in the afternoon. The obscuration will not be total, the apparent size of the moon being such as to leave a ring of light which will continue only from four to six and a half minutes. It is stated that at Washington and Richmond the ring will not be perfect, the appearance of the sun being that of a very slender crescent. This will be the last central eclipse of the sun until May 20th, 1854, and the next total eclipse of that luminary will be in August 7th, 1859—thirty-one years hence. How few of those who have now attained the meridian of life will live to see it.

We had the following in the Lewisburg Gazette.

LOCO FOCALITY AND IMPOSITION. TO THE PUBLIC.

Seeing my name in the last Lewisburg Republican, among the list of delegates to the Van Buren and Porter—Loco Sub-Treasury, shimpleser Convention, to meet at Harrisburg on the 4th of July next, I desire to give as early, and as public notice as possible, that I consider it a base fraud and imposition on the public and a gross insult to myself to have inspired there, (as it was) without my consent or knowledge; and I would further state that in giving my vote for Governor at the next October election, I would be extremely sorry to give it to a horse racer, a gambler, a paramour of a Negro's companion and a rich insolvent debtor who would plead the statute of limitations to a suit brought by a poor honest creditor for an honest debt. I know Porter too well to vote for him. How religious or moral men can reconcile their consciences to vote for him, I know not; but this I do know, that let others do as they will, I am determined to give my vote for Governor of Washington county, who has been tried and found faithful and true to the best interests of his country and whose character stands unimpeached and unimpeachable.

GEORGE BECK.

MOCK FUNERAL.

From the National Intelligencer. On Friday last, about eleven o'clock at night, when many of our citizens had retired to rest, and many others were about to do so, the sound of solemn music was heard proceeding from the west towards the eastern part of the city, along Pennsylvania avenue. Soon afterwards a mock funeral procession made its appearance. There were probably not less than four or five hundred persons moving by couples in the train. They were preceded by two persons on horseback, clad in funeral habiliments. A transparent coffin was borne upon the shoulders of several other persons upon the sides of which, in very large letters, were inscribed the words "SUB-TREASURY." At the tail of the procession, a large transparent revolving lantern, affixed to a pole, was exhibited, on the sides of which were different inscriptions, such as "Glory enough!" "Solitary and alone!" "Down with the Monster!" &c. As the procession moved towards the Capitol, the number of persons was considerably increased, so that, we are told, there were not probably less than three thousand persons present when the coffin was plunged into the Washington canal, where it was finally deposited; a brief address, or oration, having previously been made over the monument remains of the "monster" which it was supposed to contain.

We notice this mock funeral pageant, which has been much the topic of conversation here within the last two days, as one of those local occurrences which we are expected to chronicle under the head of "Home Intelligence," without knowing with whom it originated, or by whom it was conducted. It is right to state, however, that it was all done in an orderly manner, and without any other disturbance of the peace than the firing a few guns at its close.

We learn on good authority, that a distinguished Van Buren leader has written to the president, requesting him to instruct the Globe to whip into the ranks some of the refractory Van Burenites in this place.—Raleigh Register.

The request is as reasonable as that of the Smithfield drover to his neighbour—"I say, Jack, these cursed sheep won't move in this weather, lend us a bark of your dog, will you."—Lou. Journal.

Miss Angelina Grimke has been astride the abolition hobby more than five years.—N. Y. Age.

We consider it very unbecoming in a lady to ride in that manner.—ib.

Compunctions.—Some sub-treasurer under the government of Massachusetts has sent an anonymous letter to the Secretary of the State, enclosing \$48, which he says he owes the Commonwealth.—N. O. Picayune.

We suppose he has turned either Whig or Christian.—ib.

The fellow Burk, indicted for swearing falsely against Mr. Clark, the Mayor of New York, has been acquitted on the ground of insanity. We are not certain but most of the loco focus, if brought to trial for their crimes, might procure an acquittal on the same ground.—ib.

Monstrous.—The Pennsylvania Reporter says "Joseph Ritner has appointed John D. Foreman, a high mason, to be a Justice of the Peace for one of the Townships in Mercer county.

This seems strange news to the Reporter. Joseph Ritner, has shown most clearly by his conduct, that he is no persecutor of masons; and that he don't acquire of applicants for office whether they are masons or not. His main enquiry is: "Is he honest or not capable?" Such a course of conduct, well befitting the farmer for the station which he now so honorably and honestly fills.

The late Governor's Census says—Mr. Mackenzie's tender recognition, to the amount of \$10,000 in specie at the court now sitting at Albany is not any indication that may be brought against him for setting on foot the expedition to Navy Island. Last Thursday the Grand Jury came into court with an indictment against him, that alleged offence, and he left last night in the steamboat for Albany for the purpose of standing his trial. True bills have been found against Messrs. Van Rensselaer and Sutherland. Mr. Mackenzie intends to conduct his own defence.

Both Houses of Congress have agreed to adjourn on the 9th of July.

Loco Foco candidate for Governor of Maine.—The Convention has nominated Jacob Fairfield now a member of Congress. The Whig candidate is Edward Kent. The election takes place early in September.

Steam Packets.—We learn from Mr. Ramsden the chief engineer of the Sirius, and with pleasure, that the British and American Steam Navigation Company, have contracted for the immediate building of three large and splendid steam ships to run between Cork and this port, in conjunction with the "British Queen." They are all to be somewhat larger than the B. Q. We hear that they will be christened, President, Great Britain, and United States. The keel of the first named has already been laid.—New York Whig.

POSTSCRIPT. Senator Wright's new Sub-Treasury Bill has been defeated in the House by a majority of 19.
