Miskin's Pills.

THE Original Hygeian Universal Vegetable Medicine, prepared by W. MISKIN, Esq. Member of the Royal College of Surgeons, Licentiate of Apothecaries Company, Fellow of Bolt Court Society, Surgeon to the Royal Union Pension Association, Lancaster place, Waterloo Bridge; and Perpetual Pupil of Guay's and St Thomas' Hospitals, London.

These pills having gained acelebrity unparalleled in every section of the Union, are now considered by all those who value good health, indispensable as a family medicine—patronized by a numerous body of the most eminent Physicians both in this country and in Europe,—is sufficient, it is presumed, to stamp their character in the estimation of every thinking man, and it is hoped, a far better recommendation than the course resorted to by ignorant and unprincipled pretenders, who to mislead and deceive the public, publish what they call practical proofs and certificates of Cures, that exceed all bounds of rational credibility, and most of which, if not all, are either gross fabrications, or procured by *fraud* and connivance.

The editor of the Long Island Farmer, says—"This medicine has obtained an unprecedented degree of well preserved popularity. Having taken these pills ourselves to advantage and witnessed their beneficial effects on others, we have no hesitation in recommending them to the public as a safe, salutary and useful family medicine."

***None are genuine without the signature of the General Agent on the label, by whom the above medicine is imported into this country.

Public Notice.

AS it appears, that because Mr. Crane obtained no patent for smelting Iron Ore with Anthracite Coal in this country, many suppose that they are now at liberty to adopt the method of smelting Iron ore with Anthracite by the use of a heated air blast; although I gave notice last year that I had a patent for smelting Iron Ore with Anthracite Coal, both by the use of a cold atmospheric and a heated air blast, I would now inform the public again, that on the 14th of January, 1838, I received a letter from the Commissioner of Patents at Washington, stating: "Sir, upon examining the case of Mr. Crane's application for a patent for Smelting Iron by means of Anthracite, I have viewed his claim as interfering with your patent of Dec, 1833, and have given notice to his attorney of this decision." Every attempt to smelt Iron ore with anthracite by the use of a heated air blast, is an infringement upon my patent, against which I caution and warn all men; as I shall prosecute every one infringing upon my rights, according to law. And I further offer to dispose of patent rights for the erecting of furnaces, according to my patent, upon very moderate terms.
