MISKIN, Esq., Member of the Royal College of Surgeons, Licentiate of Apothecaries Company, Fellow of Bot. Court Society, Surgeon to the Royal Union Pension Association, Lancaster Place, Waterloo Bridge; and Perpetual Pupul of Guy's, and St Thomas' Hospitals, London. These pills having gained celebrity unparalleled in every section of the Union, are now considered by all those who value good health, indispensable as a family medicine—patronized by a numerous body of the most eminent Physicians both in this country and in Europe,—is sufficient, it is presumed, to stamp their character in the estimation of every thinking man, and it is hoped, to be better recommended than the course resorted to by ignorant and unprincipled practitioners, who to mislead and deceive the public, publish what they call practical proofs and certificates of Cures, that exceed all bounds of rational credibility, and most of which, if not all, are either gross fabrications, or procured by fraud and connivance. The editor of the Long Island Farmer, says:— "This medicine has obtained an unprecedented degree of well preserved popularity. Having taken these pills ourselves to advantage and witnessed their beneficial effects on others, we have no hesitation in recommending them to the public as a safe, salutary and useful family medicine."

Public Notice. AS it appears, that because Mr. Crane obtained no patent for smelting Iron Ore with Anthracite Coal in this country, many suppose that they are now at liberty to adopt the method of smelting Iron Ore with Anthracite by the use of a heated air blast; although I gave notice last year that I had a patent for smelting Iron Ore with Anthracite Coal, both by the use of a cold atmosphere and a heated air blast, I would now inform the public again, that on the 14th of January, 1838, I received a letter from the Commissioner of Patents at Washington, stating: "Sir, upon examining the case of Mr. Crane's application for a patent for smelting Iron by means of Anthracite, I have viewed his claim as interfering with your patent of Dec, 1833, and have given notice to his attorney of this decision." Every attempt to smelt Iron ore with anthracite by the use of a heated air blast, is an infringement upon my patent, against which I caution and warn all men; as I shall prosecute every one infringing upon my rights, according to law. And I further offer to dispose of patent rights for the erecting of blast furnaces, according to my patent, upon very moderate terms. FREDERICK W. GEISSENHÄNER. New York, May 16, 1838. 37-ly

HEADACHE, SICK OR NERVOUS. THE extraordinary reputation that Dr. Spohn's remedy for this distressing complaint is every day gaining is certainly a matter of much astonishment. This remedy should have existed for ages without any discovery of an effectual preventive, or cure is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been discovered, and will convince the most incredulous. The principles upon which it acts are simple and plain. It is an admitted fact that this complaint, whether called Sick Headache, or Nervous Headache, arises primarily from the stomach;—those who think they have the Nervous Headache are mistaken. The stomach, the organ, the stomach, is the first cause; that the system has become vitiated or debilitated, through the stomach, and that only through the same channel can it expect a restoration of the natural and healthy functions of the system. This object Dr. Spohn's remedy is eminently calculated to attain. The truth of this position cannot be controverted, and the sooner sufferers with the headache become convinced of it, the sooner will their sufferings and its restoration to health. Dr. Spohn pledges his professional reputation on this fact. The remedy may be had of apothecaries. Wholesale and Retail by Constock & Co. No. 8 Fletcher St. New York, and Retail by WM. T. EPTING.
