FROM HARRISBURG. Hannishung, Friday Jan. 25, 1839. The House, to day, passed on second reading, Bill making the following appropriations:

To the North Branch division. **8230,000** 250,000

Erie extension, West Branch and Sin-150,000 nemahoning, Avoid the Incline Plane at Columbia, C. Wisconisco Canal 30 000 40,000 Repairs of Canals and 300,000 Railroads, \$1,000,000

We copy the following article from the U.S. Gazette. It is written evidently by a person who is conversant with the affairs of our region, and his views are all sound and practical. We will notice the article more at length in our next, and we think we shall be able to show that the Navigation Company, and that oxir, has it in its power to remedy the evils and difficulties, under which the Schuylkill Coal trade is now laboring:

Mr. Chandler,-I observe in your paper of the 10th inst. some comments on an article published in the Miner's Journal of the week previous, on the subject of the coal trade, in which it is stated, that from 1831 to 1837, there, has been an annual average increase of 100,090 tons sent to market, and in 1838, a defigiency of 140,000 tons; and that three fourths of the deficency was in the amount sent from the Schuylkill coal region. The writer asks how tend to me their support. I have the does this happen, and very properly remarks, it is a

question of vital importance to the ediministit.

The cause of the deficency may be attributed in part to an overstock of over 200,000 tons in market last spring, which consequently limited the demand in the early part of the sea-on; but why should it at fect the Shuylkill trade to a greater degree tran

any other iv camer. It cannot be attributed to the want of capital or enterprize on the part of those engaged in the trade, as they have always been prepared to supply any amount of coal that could be disposed of at fair prices, nor yet on account of a deficiency of water in the canal, for any one tamiliar with the coal trade of last year on the Schuplkid, must admit that notwithstanding a detention for three or four weeks on that account.) that there could have been from 150 to 200,000 tons more shipped during the season, it the coal could have been disposed of at prices that would have afforded even a moderate profit to any branch of the trade.

From the experience of the two or three previous

years, the dealers in this city find, that owing to a lefect somewhere, their average loss in weight of coal received on their wharves, amounts to nearly 10 per gent, including dirt, slate, and every thing landed from the boat. Which adds about 50 cents per ton on the cost of their coal, or would enable them to sell their coal at 50 cents less per ton. On the Light Canal this loss is ascertained not to exceed one per cent, which makes a difference in tavor of the dealer in that coal of 45 cents per ton, and admitting that the cost of mining, transportation, and toll, were the same, would be sufficient to give them a decided advantage in a depressed state of the market, which was the case this season. To remedy this evil, those engaged in miring operations, or dealing in Schuylkill coal, are entirely de pendant on the Navigation Company, as the weight they charge toll, is necessarily the weight at which coal is purchased, and freight paid on it; and also determine the light weight of boats, to which no doubt a great part of the deficiency may be traced -It must be self evident, that this state of things will Waggon, and Harners, to the said Regben Kline be a serious injury to the coal trade on the Schuylkill, unless a remedy can be applied.

Perhaps at that moment the heading of this advertisement, "Moffat's Life Medicines," would catch their eye; and were they in truth divested of foolish prejudices, they might, perhaps, be induced to investe whether Mr. Moffat's theory and treatment of diseases, differed from that of their own physiciams. They would then learn that it did dif-fer, and way widely, and with most unhappy re-

sulta too.
If they pursued their inquiries still further, they would find that all practising physicians of the present day prescribe MERCURY, in some form, for almost every ducase, and they would learn, too, that mercurial medicines, though they give present relief, undermine the constitution, and always leave the patient in a precarious state of bealth.

A GOOD VEGETABLE MEDICINE is just the reverse of all this. For hundreds of years, be-fore that scoorge of mankind, "Mercury," was employed in the healing art, Physicians used nothing but simple herbs. Even the bible recommends as the skilful physician he who prepareth his medi-cines from herbs. Witness Ecclesiasticus, chapter

MOFFATS VEGETABLE LIFE MEDICINES possess qualities of the most mild and beneficial nature. They are composed of articles the most antiputresscent, combined with ingredients known as the only certain autidote for fevers of every description. When the disease is produced either from cold, obstruction, bad air, swampy and camp situa. tions, or putrid miasmi, whether malignant or epi-demic, or by other causes, these medicines are certain in their operation or effects. They are pos-sessed of peculiar qualities, which not only expel all disease, but at the same time restore and invigorate the system. When first taken into the stomach, they immediately diffuse themselves like vapor, through every pore; producing effects at once delightful, salutary and permanent. When the spark

The following letters are lately selected from a very large number which Mr. Moffat has lately re ceived from different parts of the United States: Mr. Moffat. - Dear Sir :- It is with sincere pleasure that I venture to address you, to thank you for the benefit I have received from your medcines. My complaint was salt rheum, for which l have tried all the medicines which were advertised in the newspapers. I, however, received no relief from any of them. Since I was shown your Good Samaritan, which induced me to try your medi cine. When I applied to you, my legs and arms were so had that they looked like raw beef and

box of your pills, the dead skin began to scale off, and so continued until I was entirely cared. It is now four months since I was cured, and I have had no return of the complaint. I have recommended your medicine to several persons, and should advise all afflicted with the salt rheum to try it. Respectfully, your obedient servant, M. CLEOVER,

Yours truly, JOHN TENNENT, N. Y. New York Mills, March 29, 1838. Mr. Moffat - Dear Sir : I have used your medicine in my family for some months, and have receive ed great benefit from it, especially my wife and eldest daughter. My daughter had been in a decline for 3 years. Since she commenced using your medicine she has entirely recovered, and is now well and hearty. If this will be of any service to cou. you are at liberty to publish it. Resply yours, we N. BUTLER.

Summit Hill, Jan. 18th, 1838. Dr. Moffat-Dear Sir: I have great pleasure i addressing you, having been troubled for some time back with the rheumatism, and could find nothing to give me any relief, until I had commenced tato give me any rener, until I had commenced ta-king your Vegetable Life Pills and Phoenix Bitters. In taking the first bottle and one box of pills I found the most excrutisting pain that I had long been troubled with, entirely disappeared. Such being the case, it is with gratitude I offer these sentiments feeling confident that I am indebted to you more than words can express, for your valuable medicine and the speedy cure received from its effects. Yours, &c., Marich chunk, Jan. 7, 1838.

Mr. Moffat-Sir : I am most happy to send you through your agent Mr. White, a few lines relative to your excelent Life Medicine. For a length of time I have been coruplaining of an infection of the liver, and tried much medicine, but found no relief until I commenced with yours; I have now taken nearly two bottles of your Phoenix Bitters, and I am pleased to state that I find myself fast recovering from a long and lingering complaint.

Resp'ly Yours &c. GEORGE KISNER.

Philadelphia, Saturday, Nov. 17, 1838 NO DR. WM. EVANS.—Dear Sir: It is with pleasure I take this opportunity of returning you my sincers thanks for the benefit of your invaluable medicine, the Camomile Pills. Having been afflicted for several years with dispepsia, my very being became almost loathsome to me. I suf fered severe pains in the side, was afflicted with fainting spells, great debility, want of appetite, inability to rest at night, frequent sickness, and in short all the symptoms of that distressing disease. I had fried several skilful physicians, but with no success, my imbecility of mind and body gradually increased, still I strictly abstained from using any of the nostrums and 'certain remedies' with which our newspapers daily abound, and for waich I enterborror and contempt. - At length earnest entreaty of my friends, and especiatip my wife, I with great refuctance consented to try your celebrated ville. The effect was wonderful, and astonished even my most sanguine friends. I had used them but a short time before I rapidly recovered, and I now enjoy excellent health, to which I have been a stranger for more than two years. I cannot sufficiently express my heartfelt gratitude to you for the advantage I derived from your meetcines, and l'earneatly and concientiously recom-mend all suffering under similar complaints to use your CAMOMILE PILLS. Although with some diffidence. I'cheerfully desire diat you publish this

testimony, if you see proper, and remain
Yours, &c. WILLIAM B. TAYLOR. P. S.—If any person desires to see me, I shall be happy to give my residence.
