Away! away! 'tis a glorious morn, And my heart leaps up to go;
The trusty skate shall best us on,
O'er the sleping wave below.
The golden beams which the day god sends,

The distant hill-tops lave:
But the brightest smile which his godship sends
Is his bash on the frozen wave.

Away! away! for the skater's shout
is inging along the air;
The gathering bands are hastening out.
In the gladsome sport to share;
Oh, there's never a tone of music's own,
That the bounding soul can feel.
Like the merry sound of the crackling ice,
And the ring of the skater's heel!

Then up, and away! for the moments fly! Let's hie o'er the snow clad plain; For the joyous streams all captive lies
In the froiteksome b'rost-King's chain!
Hurrah! Burrah for the ice bound lake!
No speed let our fleet limbs lack;
And the slumbering echoes shall shouting awake
"As wedash o'er our slippery track!

MOFFATS VEGETABLE LIFE MEDICINES possess qualities of the most mild and beneficial nature. They are composed of articles the most anti-putresseent, combined with ingredients known as the only certain antidote for fevers of every description. When the disease is produced either from cold, obstruction, bad air, awareny and camp situations, or putrid masmi, whether malignant or epior by other causes, these medicines are cor tain in their operation or effects. They are possessed of pecuhar qualities, which not only ex el all disease, but at the same time restore and invigorate the system. When first taken into the stomach, they immediately diffuse themselves like vapor, through every pore, producing effects at once delightful, salutary and permanent. When the spark N. R. Yours, &c., New York, April 1838. Dr. Moffet-Sir: Since your Life Medicines have been introduced in this neighborhood, they have done wonders. I will merely state a few cases. Mr. Milo B. Root, my next door neighbor, who was laid up with inflamatory rheumatism, by tak-ing two bottles of the Bitters and one 25 cent hox of the Pills, told me he was as well as he ever was. and told a gentleman to my store who was afflicted, that as soon as he would take the Pills and Bitters just so soon he would be a well man, . Also, Mrs. Hordu, wife of John Hordu, was two years since taken sick, and often had fits, and lost the use of one of her arms. In six weeks after taking your Pills and Bitters, so far recovered that she has been on a visit to one of her-neighbors.

As for myself, I have been in had health for 27 years, and though I am not now in perfect health, still I am in better than I have been for ten years past, which I believe to be the consequence of taking your Pills and Buters. The above is a true statement of a few of the many cases which have come under my observation. Patent Safety Fuse, FOR IGNITING THE CHARGE IN

BLASTING, Both in dry places and under water. MANUFACTURED POLELY IN THE UNITED STATES, BY BACON, BICKFORD, EALES & CO. SIMSBURY, HARTFORD, CONN.

Numerous recommendatory certificates might be given, but the following, which briefly explains the properties of the Fuse, is deemed sufficient. The Fuse supersedes the Priming needle, Pri ming, and Match.

HAVING seen the Patent Safety Fase of Blasting, tested to our satisfaction, we cheerfully certify that we are convinced it saves much time and labor-adds to the force of the blast-ensure certainty, and renders blasting perfectly safe.—Be-sides, it is, we think, cheaper than the common straw fuse. For dry blasting it is a great improvement; but for blasting in wet ground, it is invaluable.— Messes F. Hitchins & Co., contractors on the Eric canal, certify that they have been engaged in the Cornish mines, England, where the Fuse is exclu-aively used, and that it has never, to their knowledge, caused a miscarriage. They confirm our a bove expressed cpinion of its value. We make no doubt that it will soon be in universal use.

A N UNDENIABLE FACT.—Health is the source of Happiness.—Disease is the effect of some irregularity in the natural or healthy functions. Man produces great ends by multiplied and extraordinary measures, but nature accomplished her works by few and simple meins. In the cure of all human maladies, the relief of irritation is the great object of medicine, the office of the physician, is to deliver his patient from all that is noxious and debilitating, so that the constitution or nature will be enabled to perfect the work of restoration. Luce Veneral, &c. &c. So effectual has this medicine been in the cure of vi-rious diseases for which it is recommended, that it is far superceding all other preparations of Sarsaparilla, Pana-ces. &c.

It is now employed by numerous physicians, and has been introduced by the n into many hospitals, infirma-ries, &c. throughout the United States. It is a preparation of greater strength (consequently of greater efficacy) than any other extract now made, also much cheaper, being but one dollar per bottlewhich is sufficient to make one gallon of Syrup of Sarsaparilla, and is bought by different druggists for that purpose.

Swaim's Panacea. A Sthe intemperance and luxury of the age are hastening the ravages of scorbutic complaints and rendering the blood more impure; and as thousands have destroyed their constitutions by neglecting to apply the proper remedies—to such, Swaim's Panacea must be and has been, more than doubly valuable as a certain and effectual means of restoring them to perfect health and vigor. Few families are wholly exempt from seon and vigor. Few families are wholly exempt from scorbutic affections, which exhibit various symptoms, as euptions, ulcerations, debrity, loss of appetite and dejection, all arising from impure blood, and if not properly attended to, produce the greatest injury to the coastitutution, and may be imparted to, their offspring.—Swaim's Panaces is recommended at this season of the year, as a valuable restorative of the system, thereby invigorating the constitution, and enabling if to bear the debilitating effects for the summer season. It is conveyed by the circulating fluids, and corrects their tendency to all those diseases which originate in withsted blood, diseased liver, de praved appetite, or predisposition to afdiseased liver, de proved appetitie, or predisposition to af-fections of the lungs, &c. No one, however, is advised to use it without convincing themselves of the truth of

what is here stated. This medicine is now used with success in all parts of the world, and is gaining great reputation in England.

PHILADELPHIA, Saturday, Nov. 17, 1838 TO DR. WM. EVANS .- Dear Sir : It is with pleasure I take this opportunity of returning you my sincere thanks for the benefit of your invaluable medicine, the Camomile Pills. Having been afflicted for several years with dispersia, my very being became almost leathsome to me. Food, feered several mine in the side. fered severe pains in the side, was afflicted with fainting spells, great debility, want of appetite; inability to rest at night, frequent sickness, and in short bility to rest at night, frequent sickness, and in short all the symptoms of that distressing disease. I had tried several skilful physicians, but with no success, my imbecility of mind and body gradually increased, still I strictly abstained from using any of the nostrums and 'certain remedies' with which our newspapers daily abound, and for which I entertained a horror and contempt. At length through earnest entreaty of my friends, and especially my wife, I with great reluctance consented to try your wife, I with great reluctance consented to try your celebrated tills. The effect was wonderful, and astonished even my most sanguine friends. I had used them but a short time before I rapidly recovered, and I now enjoy excellent health, to which I have been a stranger for more than two years. I cannot sufficiently express my heartfelt gratitude to you for the advantage. I derived from your moncures, and I earnestly and concientiously recom-mend all suffering under similar complaints to use your CAMOMILE FILLS. Although with some diffidence. I cheerfully desire that you publish this

testimony, if you see proper, and remain
