JOHN W. HEFFNER GEORGE MOYER

The celebrated substitute for

The celebrated substitute to:

CALOMEL.

The proprietors of this article, having develor seems of years and expended a large amount of money, in experimenting upon the various species of the Tomoto, (Solamun Lycopercicum,) have at last see cected in obtaining from that vegetable a principle which as a medicine possesses all the beneficial properties of rational, and yet incapable of produbing the deletions effects stantings resulting from the use of that drug. This principle (kepatine) is a mild and afficient cathartic, and, as compounded, as so acts as a toxic distriction, and displication. (See directions accompanying the medicine).

Its particular action and use.

Its action upon the system is very general, no part escaping its influence; it is, however, upon the secretories and exercitories, that its great power is particularly manifested; from this it will be seen to have a direct effect upon the biliary organs, and to be particularly: dapted to the treatment of bilious feers and other discusses where a tappidity of congestion of the liver and particular circle prevail; hence the great sincess that has attended its administrational liver affections dyshepsiand discusses of the stomoto and boxelogenerally. Be mightly below in operationally producers afree circs it too in the vessels on the surface of the body, secompanied by a gentle perspiration. It does not erbaustic with great bedge; this becomes indispensably ine cessary in cases of fing standing, for in them intense temporary impressions made by strong medicines seldom, if ver, do good, and tend to injure the stamins of the constitution.

Its claims

The proprie ors do not claim for it universality i. s. that it will cure all discases; nor, on its introduction into a family, should the physician be dismissed; no, they would advise all to have a family physician, and the more experienced and scientific the better: they do claim, however, that a timely resort to this medicine may in a great many instances save the expense and trouble of calling the aid of such physician, it being capable of producing the effect desired in the primary stages of a majority of diseases incident to this country. In many long standing, or chronic diseases, such as in conditioned ulceral aid the various diseases so the skin, it may be taken by persons of common judgemest without medical advice.

Not only are families' advised to give it a trial.

Not only are families' advised to adopt it as a family medicine, but those who are labouring under disease and ten the deleterious effects of, as well as those who The proprie ors do not claim for it universality it

that calomel has faded to remove; those who have seen and leit the deleterious effects of, as well as those who esteem culcumel to be the best of all medicines; and those too, who have tried "every thing." (from the boasted to, who have tried "every thing." (from the boasted cure all mostrums parporting to have emanated figure great fixing colleges or societies down to humble quack medicine of Dr. A. B. C. to Z) all act invited to rry this simple American atticle. It is not the injention of the profitietors to sustain this medicine by certificates and putfling but by way of introduction in those places whore it has not been known, it is deemed proper to show with it is said of it where it has been known the past year. The following editorial articles and extracts from leterate by physicians, and others are given for that purpose.

ters by physicians, and others are given for that purpose; in The following is an editorial from the Cincunsti, Telegraph, edited by Rishop Purceil:

"Letract of Tokkin, a substitute for Calomel."—The injugious amplifrequently destructive consequences that have often resulted to the human Traine from the hecassity of having recourse to a drug of no powerful; and af the same time, of so deleterious a nature, as calomel, induce u to welcome the announcement of a safe, and what is confidently states to be, in most cases, an effectival expectation of the good qualities, is free from its most objectionable offes. Every discovery in the virtues of the vegetable kingdom must have its infancy, and its period of orobation. We are inclined to think this will stand the test of scrutiny, and be a most desirable acquisition to the world, and particularly to the people of this country. We have heard it highly spoken of, and we believe the result of every investigation of its usefulness, yet made, has been favorable.

The proprietors of the Compound Extract of Tomate make no secret of its composition, but reveal it to every medidal man who desires to know it."

The following is extracted from a letter to one of the proprietoes by the Hon I. Barnett, formerly mayor of the city of Cincinnatti. Dr. MILES:

Dear Sir.—••••• If have used your Compound
Extract of Tomato during the past summer and fall, and
have no hesitation in beheving it has saved me several
medical bills. Four of my family during that period
were indisposed, and exhibited the usual symptoms of a
bilous attack. They were in every instance relieved
by the use of your Tomato pills. I consider them a valuntile medicine. They are perfectly safe, and I believe
as efficacious as caloined in correcting a bilious babit.—
I have used them myself with great benefit.

Basac Burnett. Cincinnatti, January 6th, 1838.

made the science of medicine his particular study.

Cincinnatti, February, 1st. 1838. DR MILES: Da Mir.es:

Dear Sir.—It is with much pleasure that I bear testimony to the efficacy of the Tomato pills in affections of the treer: from its operation which I have witnessed it my own case. I am ready to conclude that you have discovered the long looked for casideratum. A substitute for calomel in diseases of the liver. Accept, sir, my grateful acknowledgments. Your obedient servant.

Robber Tungbon.

ROBERT PUNCHON.

The following is extracted from a letter of a highly respectable physician to friends of his in Cincinnati, who had solicited his opinion as to the virtues of this medicine:

Lawrenceburgh, January 26th, 1838.

Missas Paca & Co.

Gentlemen. * * I have used the article (Miles Compound Extract of Tomato) somewhat extensively in prescription for some months past, in many of the alignment numberless manifestations of hepatic derangement particularly in infantile cases, and although I cannot say, that it is in ALL cases a substitute for mercurial medicines, yet the striking analogy in its the apputic effects is such as to recommend it favorably to my mind as an adjuvant in most instances to the exhibition of calomel, and where an immediate or speedy alternative effect is not indispensible, it may supersedeits use altogethomei, and where an immediate or speedy alternauro was fect is not indispensible, it may supersedeits use altogeth-er. In several instances in which an antipathy or pre-judice against mercurial remedies existed, I have pre-scaped it with very good effect. Fam, gentlemen, respectfully yours, &c.

J. H. Brower, M. D.

The following, is a voluntary statement made by a highly respectable and scientific Physician, and appeared in the "Jeffersonville Codfier," last winter—MILES' EXTRACT OF TOMATO—A suspiritory. MILES' EXTRACT OF TOMATO—A suspiritory pro Rollomel—Having made a trial of the above aristice, I feel was ranted in recommending it as a useful medicine. The pills possess all the purgative and anti-billy took properties of calomel, without any of its impurious tendencies. Persons who see addicted to habitual torpor of the liver, and consequent accumulations of bile, and who have been compelled to have resourse to the different preparations of mercury, for relief, will find Miles' Pills, a safe and convenient substitute—NATL FIELD, M. D. Numerous other Testimonials from Physicians and

others in its favor can be examined at this office.
