MOFFAT'S LIFE MEDICINE -RE-ANIMATION -- When the most important functions of life are suspended, and those who are invalids by inheritance or imprudence are reduce to a deplorable state of nervous debility, they should not even then despair, for it is not in despair that relief can be found. No. Let them first look a round, and, laying baide all prejudices, ask them selves this question-"If my physicial. c. ale, is his reputed skill my only resort?" -Timy physicial cannot belp Perhaps at that moment the heading of this adertisement, "Moffai's Life Medicines," would catch their eye; and were they in truth divested o foolish prejudices, they might, perhaps; be induced to inquire whether Mr. Moffat's theory and treat. ment of diseases, differed from that of their own physicians. They would then learn that it did dif fer, and very widely, and with most unhappy reaulta, too.

If they pursued their inquiries still further, they would find that all practising physicians of the present day presente MERCURY, in some form, for almost every disease, and they would learn, too that mercurial medicines, though they give present relief, undermine the constitution, and always leave the patient in a precarious state of bealth.

A GOOD'VEGETABLE MEDICINE is just the reverse of all this. For hundreds of years, be-fore that sconrge of mankind, "Mercury," was employed in the bealing art, Physicians used nothing but simple herbs, Even the bable recommends as the 'skilful physician he who prepareth his medi cines from herbs. Mr. W. B. Moffat-Dear Sir : As a remarkable instance of the virtne and efficacy of your Life Pills and Phœnix Buters, in restoring lost health to the fflicted, has occurred in my family, I deem it a duty to owe both to yourself and the public, to make e fact known, that others suffering under similar circumstances might perchance see this, and obtain remedy in season to preserve them from a premi ture grave.

My wife has been afflicted with the liver com plaint anduadirae debility for apwards of three years; and for the last three months abe has not been able to walk across the room. After trying various medicines prescribed by different physicians, which gave her no relief, she was given up as incorable. In this situation she was gradually failing, when I happened to call upon your agent in this village, and he gave me a copy of the Good Samaritan; the perusing of which induced me to try your medicine, although had but little hope of her receiv-ing any benefit from it. The effect was surprising. PHILADELPHIA, Saturday, Nov. 81 1837,

TO DR. W.M. EVANS.-Dear Sir: It is with pleasure I take this opportunity of returning you my sincere thanks for the benefit of your inmedicine, the Camomile Pilis. Having valuabl been afflicted for several years with dispepsia, my very being became almost loathsome to me. I suffered wevere pains in the side, was afflicted with fainting spells, great debility, want of appetite, ina bility to rest at night, frequent sickness, and in short all the symptoms of that distressing disease. I had tried several skilful physicians, but with no success, my imbecility of mind and body gradually increas-ed, skill I strictly abstained from using any of the nostrums and "certain franceies" with which our newspapers daily abound, and for which I enter tained a borror and contempt. At length through earnest entreaty of my friends, and especiatly my wife, I with great reluctance consented to try you celebrated 1118. The effect was wonderful, and as. tonished even my most sanguine friends. I had used them but a short time before I rapidly recovered, and I now enjoy excellent health, to which I have been a stranger for more than two years. I cannot sufficiently express my heartfelt gratitude to
