Balanc in hands of Treas'r.

87,003 40 The committee embrade this opportunity of calling the attention of the public to the increasing usi-fulness and efficacy of instruction afforded by the 412, granted and conveyed to said Shober and Bunting, and the same which Abraham Faust, and Cath-Common School System.

From a careful examination of the reports of the Visiting Committees appointed weekly by the Board, it is found that the improvement of the pu-pils taught in the Public Schools is equal to the progress made by those instructed in private schools, and that many children are instructed in the Com-mon Schools, whose parents could not afford to pay for their tuition.

The parents and guardians of children who are taught in the Common Schools, as well as the Citizeus generally, would, no doubt, be gratified by vis iting the Schools frequently, as it would afford them pleasure to mark the good order and regularity manutained in the Schools, and the application and progress of the Scholary in their several studies .-Scholars would thereby be stimulated to use greater exertions in learning-visitors would be enabled from actual observation, to form correct o pinions of the merits and defects of the Common School System of instruction-parents and guardians would discharge a duty which they owe to the Pupils who are under their direction, and all parties be benefitted.
