Tis sweet to hear bright beauty's tone Mingling in unison with thine, And then to hear her softly own, That thou art hers, and she is thine; Oh! these are feelings, which vain joys outshine, And which should teach in in never to repine.

But brighter than the setting sun,

Gilding the west with burnished gold, And sweeter than bright beanty's tone, Which oft is bought and oft is sold, Is the fond fact which thrills the strong heart through, Thou hast a friend whose fuith is firm and true.

Tis hard to breast with unflinching front, Misfortune's cold and chilling blast. To feel and bear the heavy brunt. Of hopes coming thick and fast, And then to know that years of trouble past Hath bought the wealth that now hath gone at last

'Tis hard, tis very hard to part With those whose forms we've always loved, And the deep sorrow of the heart,

None knows but he who crst hath proved The feeling, and can tell the harrowing smart, Which forces sorrow back upon the heart. But harder than the sad despair,

That stern and cold misfortune brings, And sadder than the sorrowing tear. That parting friendship always wrings, Is the cursing blight the proud heart always bath. When the friend of his bosom doth betray his fuith.

The celebrated substitute for CALOMEL.

THE proprietors of this article, having devoted nearly seven years, and expended a large amount of money, in experimenting upon the various species lof the Tomato. (Solanum Lycopercicum, have as last succeeded in obtaining from that vegetable a principle which as a medicine possesses all the beneficial properties of caloned, and yet incapable of producing the delegious effects sometimes respiting from the use of that drag. This principle (hearing) is a mild and efficient drag. This principle (hepatine) is a mild and efficient cathartic and, as compounded, a so acts as a tonic di-urectic, and diaphortic. Its particular action and use.

Its action upon the system is very general, no part escaping its influence; it is, however, upon the secretories and excretories, that its great power is particularly manifested; from this it will be seen to have a direct upon the biliary organs, and to be particularly a dapted to the treatment of bilious fewer and other dispenses where a templatic for consistence of the lives and other a templatic for consistence of the lives and other as templatic for consistence of the lives and other dispenses where a templatic for consistence of the lives and other dispenses where a templatic for consistence of the lives and other dispenses where a templatic for consistence of the lives and other dispenses the dispense of the lives and other dispenses to the lives and other dispenses the dispenses of the lives and other dispenses the dispense dapted to the treatment of bilious fevers and other dis-eases where a torpidity of conjection of the litter and justal circle prevail; hence the great success that has attended its administration in liver affections, dyspepsi-and discases of the stomach and burds generally. Be-ing diffusible in its operation, it produces a free circular tion in the vessels on the surface of the body, accom-panied by a gentle perspiration. We are inclined to think this will should be test of scrutiny, and be a most desirable acquisition to the world, and particularly to the people of this country. We have heard it highly spoken of, and we believe the result of every investigation of its usefulness, yet made, has been favorable.

The properties of the Compound Extract of Tomato make no secret of its composition, but reveal it to every medidal man who desires to know it.

The following, is a voluntary statement made by a highly respectable and scientific Physician, and appeared in the "Jeffersonville Courier." last winter:

MILES: EXTRACT OF TOMATIO—A SUBSTITUTE POR CALOUSE.—Having made a trial of the above article, I feel wairanted in recommending it as a useful medicine. The pills possess all the purgative and anti-bilious properties of caiomed, without any of its injurious teninencies. Persons who are addicted to habitual torpor of the liver, and consequent accumulations of bile, and who have been compelled to have resourse to the different preparations of mercury for relief, will find Miles Pills, a safe and convenient substitute.
