From the Savannah Georgian. SHE TOOK BER LUTE.

BY LIEUT. G. W, PATTEN, C. S. A. She took her lute from where it slept, And placed it in the breath of spring-But when the breezes o'er it swept, A wanton Zephyr broke the string; And, as its shrick died on the ear, (That cord's wild shrick when snapp'd in twain,) With measur d sounds twas grief to hear,

The musing maid prolong'd the strain: "Oh! thus-tis thus with her who spread Her bosom cords for love to ring; His breath inconstant breaks the threads. And leaves the heart a tuneless thing.

She tore a flow ret from the shade, And bore it to the beams of day, But while the light around it play'd, At wither'd neath the burning ray; And as she mark'd each fragrant leaf,

Fast shrinking in the noonday glare, Again with mellow d tones of grick, She sang song the scented air. "And thus, "tis, thus, with her, unwisc, Who courts the sun of passion's eye, 'Mid lights that seem of heav'nly rise,

The startled dreamer wakes-to die. "

MOFFAT'S LIFE MEDICIAE -REfunctions of life are suspended, and those who are invalids by icheritance or imprudence are reduced to a deplorable state of nervous debility, they should not even then despair, for it is not in despair that relief can be found. No. Lei them first look around, and, laying aside all prejudices, ask them selves this question-"If my physicial cannot help ene, is his repoted skill my only resort ?"

Perhaps at that moment the heading of this advertisement, "Mosfat's Life Medicines," would catch their eye; and were they in truth divested of foolish prejudices, they might, perhaps, be induced to inquire whether Mr. Moffat's theory and treatment of discases, differed from that of their own physicians. They would then learn that it did dif ser, and very widely, and with most unhappy re- tance.

If they pursued their inquiries still further, they would find that all practising physicians of the present day presente MERCERY, in some form, for almost every disease, and they would learn, too, that mercurial medicines, though they give present relief, undermine the constitution, and always leave the patient in a procarious state of health.

A GOOD VEGETABLE MEDICINE is just the reverse of all this. For hundreds of years, before that scoarge of mankind, "Mcrcury," ployed in the heating art. Physicians used nothing but simple tierbs. Even the bible recommends as the skilful physician he who prepareth his mech cines from herbs. Witness Ecclesiasticus, chapter

V. 3. The skillful physicion shell lift up his head; and in sight of the great men he shall be in V. 4. For he hath prepared his medicines out of the HERBS of the earth, and he that is wise will,

MOFFAT'S VEGETABLE LIFE MEDICINES possess qualities of the most mild and beneficial na ture. They are composed of articles the most anti-putresseen, combined with ingredients known as the only certain antidote for fevers of every descrip-tion. When the disease is produced either from culd, obstruction, bad air, swampy and camp situafions, or putrid miasmi, whether malignant or epidemic, or by other causes, these medicines are cer-tain in their operation or effects. They are possed of peculiar qualities, which not only expel all disease, but at the same time restore and invigorate the system. When first taken into the stomach they immediately diffuse themselves like vapor, through every pore, producing effects at once de-lightful, salutary and permanent. When the spark of life begins to grow dim, the circulation languid, and the faculties paralyzed, these medicines are found to give a tone to the nerves, exilerate the ar. amal spirits, invigorate the mbody, and ro-animate

Summit Hill, Jan. 18th, 1838. Dr. Mostat—Dear Sir: I have great pleasure in addressing you, having been troubled for some time back with the rheumatism, and could find nothing to give me any relief, until I had commenced taking your Vegetable Life Pills and Phonix Bitters. In taking the first bottle and one box of pills I found the most excratisting pain that I had long been troubled with entirely disappeared. Such being the case, it is with gratitude I offer these sentiments, feeling confident that I am indebted to you more han words can express, for your valuable medicine and the speedy cure received from its effects.

GEORGE BROFTS. Mauch chunk, Jan. 7, 1838. Mr. Moffat-Sir: I am most happy to send you rough your agent Mr. White, a few lines relative to your exocient Life Medicine. For a length of time I have been complaining of an infection of the liver and tried much medicine, but found no relief until Commenced with yours; I have now taken nearly two bottles of your Phoenix Bitters, and I am pleased to state that I find myself fast recovering from a long and lingering complaint.
Resp'ly Yours &c. GEORGE KISNER.

Lockport, Nov. 27th, 1837. Mr. W. B. Moffat-Dear Sir: As a tremarkable ustance of the virtue and efficacy of your Life Pills ind Phænix Bitters, in restoring lost health to the ifflicted, has occurred in my family, I deem it a du to owe both to yourself and the public, to mak he fact known, that others suffering under simila nstances might perchance see this, and obtain remedy in season to preserve them from a premi ure grave.

My wife has been afflicted with the liver com-plaint andus z frace debility for upwards of three years; and for the last three months she has not been able to walk across the room. After trying various medicines prescribed by different physicians which gave her no relief, she was given up as incurable. In this situation she was gradually failing, when I happened to call upon your agent in this village, and he gave me a copy of the Good Samaritan, the perusing of which induced me to try your medicine, although had but little hope of her receiving any benefit from it. The effect was surprising. Yours, respectfully, WARREN PATTERSON.
