al Coal merchants als resolved to rais themeelves would be better for solisty if only 100,000 tons coal would arrive at this water, from this date mutil ice

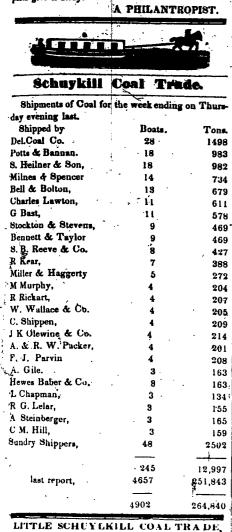

stops the canals. So you may me, well save off your figures and possesses, and appeals to consumers; there is plenty of coal here, but nobody has money or credit to buy it, and there will be less menor every day this year. Keep your coal therefore in Pottsville, and tell your Jackars neighbors to do the same : they have ruined themselves and every Coal-merchant in the U.S. There were 200,000 tons over April Ist. 1835

400,000 . have come to market up

sumption with the British Coal, up to 1st May 1840. So you may stop mining for the rest of the year and save your money. You gentlemen miners of Pottaville may as well

give it up, whether you are solvent or not-the Coal Companies or Corporations have overstocked the market and worrigd purchasers to death to buy their Coal, until Coal is now given away for singing Jim Crów.

Basides you forget those Quaker Corporations give away their Coal by delivering it to any person payable one year after delivery. As the Lehigh Coal Company, and the Beaver Meedow Coal humbeg are ruined and their stock not worth a cent, they bring down Coal on credit, and like true Philanthr pists give it away.
