The meeting then unanimously appointed Mr Andrew B. White, their Delegate to the Union and Harmony Convention, and adjourned.

, From the spirit which pervaded all who attended this meeting, we infer the most happy results. There is not a Whig in our County, who is not strongly and openly an advocate of either Henry Clay or William Henry Harrison, as the next Whig Presidential Candidate; but all are aware of the necessity of uniting on the strongest-they all feel it is a contest for principles not men, and while they regret the petty differences on minor points which harass their brother Whigs in different sections of our state, they are prepared to show their unhesitating determination to abide the decision of the National Convention. In it they have the fullest confidencethey already see named as delegates to that body; men who are tried and known as unwavering friends of reform, and who will act under every position, with a conscientious reference to the greatest good of the greatest number. We have done well-to all we say, "go, and do likewise!"

In giving place to the following communication, we cannot but regret the fatal policy which has retarded the operations of the Swatara Region. From the length of time, which has elapsed, since the bill for enlarging the Canal was passed with great unanimity by the Legislature, and from the manifest reluctance of Gov. Porter, to give it his sanction, the friends of the measure now despair of its ever becoming a law, except it is again referred to the Legislature. Why this policy has been persued by the executive, it is not our purpose to inquire; its effects are ruinous to the interests of many who were warmest in his support, and proves the fatal truth that the measures of the party of which he is the Representative, are at variance with the best interests of our State, and that any improvement which cannot be made to bear directly on its aggrandizement and influence, will never receive their sanction and support. Let the western section of our bounty re-· member the arguments we used against the election of David R. Porter, and the results we prophecied should they be so blinded as to support him; they are daily developing themselves—they prostrated themselves before the chariot of their idol, its wheels are now crushing them! When Gov. Ritner vetoed this Bill, attached as it was to the Mammoth Bill. he was compelled to his course; but the present Exeon this road for the week ending on Thursday

The canal from Columbia to the Chesapeak Bay, is expected to be finished in four weeks, opening this region to tice water, and if Gov. A Capture.-We learn from New York that the U. S. brig Washington, Capt. Gedney, arrived at New London, Conn., bringing with her the strange schooner which, for a few days past, has been hovering about our coast. She was captured in Gardner's Bay, Long slaland Sound, and proves to be the L'Amistende from Puerto Principie, which in a voyage from Hawanna to Neuvitas, was taken possession of, and her crew killed by 50 negroes that were on board. It is said that she has money and jewels on board to the value of \$40,000. The United States Marshall went down from New London on the 27th to take possession of her. The Washington was makined by 30 or 40 mays apprentices, and only three or four men.
