FELLOW: Citizens! The adoption of our new State Constitution has originated a new era in its political annule, and one which demands the attentive consideration of every freemain. The People, the true source of power, are by its provisions to become the guardians of their own interests, and from them directly, are to proceed the gilts and offices, which have for years been withheld from them. The "delegate system," has long been used as a powerful means to control the success of unworthy politicians and wrest from the people their right to choose their own officers.—As we feel a confidence in the tavirable opinion of our fellow citizens, which originates in the review of the past when we have charged our duties as their public servants to their perfect satisfaction, we do not hesitate to place our cause in the hunds of the People, when we again solicit their votes for those situations, which have heretofore filled.

but to the people, to do our duties honorably and fairly, if we secure a majority of their suffrages, we confidently present our names. JACOB HAMMER.

Dr. Jayne—Dear Sir. You ask me what proof I meet with of the efficacy of your medicine. I can safely say that I never prescribed any medicine for Bowel Complaint that has given me so much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced into a family, it becomes a standing remiedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the Summer Complaint of Children it has frequently appeared to snotch the little victims, as it were, from the grave. If saived the life of my child, and of such and such a child. I have repeatedly heard said. In dysinteric inflections of adults, I have time and again seen it act like a charm, and give permaner I relief in a few hours, I may say in a few measures. THE CAUSE OF BILLIOUS COMPLAINTS AND A MODE OF CURE—A well regulated and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion, and keeps the intestinal canal free from all obstruction. On the interior surface of the liver is a peculiar bladder, in which the bile is first preserved, being formed by the liver from the blood. Thence it passes into the stomach and intestines, and regulates the indigestion. Thus we see when there is a deficiency of digestion.
