in \$2,000,000 with the Bank of France.

In Asserican Securities there is not the slightest revival to report? The prices, where sales have been forced, have been ruinously low, as shown by the transactions of yesterday, and truly, when \$40,000 of Penneyfvahia, have been disposed of at \$9,8150,000 Ohio six per cents at \$4, and a smaller at \$10,000 of the same stack this murring at \$10,000 of the same stack this murring at \$1000. \$150,000 Ohio six per cents at 54, and a smaller amount, \$10,000, of the same steck this morning at 851. The hares of the Bank of the United States are £19 10s—these being the only American securities for which a market can be said in reality to

Respecting the operations of Mr. Jaudon, the following is the correct account. Many months since it was proposed by the body of capitalists engaged in American securities, that in orde teve the London market from the inundation American securities, a transfer of the amount of £800,000 should be made to the house of Hope & Co. of Amsterdam, and this having been favorably entertained by these wealthy bankers, was about to be completed at the time of the unfortunate occur rence of the refusal of Liettingeur of Paris, to accept the bills of the Bank of the United States. That occurrence had the effect of breaking off the nego-ciation between Mr. Jaudon and the Messrs. Hope; but after the fashion of mankind in general, no sooner had Mr. Jaudon succeeded in obtaining the recent subscriptions for a loan of £300,000 in London. and consequently not indispensably wanting the as offered to re-open the negociation—and this being desirable, but not absolutely requisite—has been responded to by Mr. Jaudon, who has been over to Holland and made the general arrangements with the land and made the general arrangements with the Messrs. Hope; but without having yet concluded the particular terms of the loan. The corsent of the King of Holland having been required by the Dutch law, has been readily obtained and the Messrs. Hope wrote on the 28th October, to invite Mr. Jaudon to return to Amsterdam, in order to complete the argangement of the terms of the loan. Amsterdam. The loan is to be for \$0,000,000 of guilders, and probably to be for five years; but the guitaers, and all other particulars, remain unsettied.—Mr. Jaudon being on one hand yery desirous of taking up the money, in order to relieve the general market for American securities, and to strength en himself and his connexions and friends, with abundance of resources in the times of pressure high are supposed to be near at hand; but not be ing otherwise in a situation of the slightest com bion he does not intend to conclude the arrange ment on disadvantageous terms.

DEAR SIR—I feel it due to you as the inventor of the medicine and to the public, who may be greatly benefited by it, to state a cure that was performed in my family by the use of your "Carminative Balsam." My little sas, when about two months old, was seized with a bosed complaint gaussed as I suppose, by a change of diet. It continued for two weeks without intermisof diet. It continued für two weeks without intermision. It continued two weeks without i Fermision, and notwithstanding the remedies presented by a respectable physician, we gave up the child a victim, as we supposed, to a fatal disease, but I providentially heard of "Jayne's Carminative," as an effectual cure for bowel complaint, and immediately despatched a messenger to a town seventeen miles off for a bottle. By the use of this medicine, in less than thirty-six hours the disease was checked; and by its continued use for a few days the child was restored to perfect health. Shortly after this, there occurred a similar case in one of the families of my congregation. I prescribed "Jayne's Carminative," and the result was a speedy cure. From a knowledge of the efficacy of your medicine in howel complaint, a disease to which children are constantly liable, I have obtained and keep constantly in the house, a quantity of the "Carminative."

The same child, owing to explaine, when recently coming up the Ohio, was attacked by that forrible malady; CROUP. We landed in the highly a Beaver Point, and when our fears were alarmed less the hourse sepuichral cough, was the foreruner of death, we gave him a tea-spoon full of the "Espectoroist," (a bottle of which you presented me with whin in Pfiliadelphia) and applied some lineament to the throst and breast, and before many minutes the hoursens, was gone, the ; child breathed forest and short weeth. ued two weeks without i Bermission, and

some lineament to the throat and breast, and before many minutes the hoarseness was gone, the child breathed freely and stept sweetly. Owing to these circumstances it cannot be wondered at why I have so high an opinion of Dr Jayne's medicine, and why I advise every family to keep it on hand ready for any emergency.
