Please read the following letter.

DARLINGTON, Beaver County, Pa. } February, 1839 DEAR SIR-I feel it due to you as the inventor of the medicane and to the public, who may be greatly benefited by it, to state a cure that was performed in my family by the use of your "Carminative Baham."

My httle son, when about two months old, was seized with a bowel complaint, caused as I suppose, by a change of diet. It continued for two weeks without intermission. It continued two weeks without i termission, and

sion. It continued two weeks without i termission, and notwithstanding the remedies prescribed by a respectable physician, we gave up the child a victim, as we supposed, twa, faind disease, but I providentally heard of "Jayne's Carisinative," as an effectual cure for bowel complaint, and immediately despatched a messenger to a town seventeen miles off for a bottle. By the use of this medicine in less than thirty-six hours the disease was checked; and by its continued use for a few days the child was restored to perfect health. Shortly after this, there occurred a similar case in one of the families of my congregation. I prescribed "Jayne's Carminative," and the result was a speedy cure. From a knowledge of the efficacy of your medicine in bowel complaint, a disease to which children are constantly liable, I have obtained and keep constantly in the house, a quantity of the "Carminative."

obtained and keep constantly in the nouse, a quantity of the "Carminative."

The same child, owing to exposure, when recently coming up the Ohio, was attacked by that horrible malady; CROUP. We landed in the night at Beaver Point, and when our fears were slarmed less the hoarse sepulchral cough, was the forerunner of death, we give him a tea spoon full of the "Expectorant," (a bottle of which you presented me with when in Philadelphia) and applied some lineament to the throat and breast, and before many minutes the hoarseness, was some; the child breathed ny minutes the hoarseness was gone: the child breathed freely and slept sweetly. Owing to these circumstances it cannot be wondered at why I have so high an opinion of Dr. Jayne's medicine, and why I advise every family to keep it on hand ready for any emergency.

Respectfully yours,
ARTHUR B. BR & DFORD,

Dr. William Evans SOOTHING SYRUP, FOR CHILDREN.

To Mothers and Nurses.

THE parage of the teeth through the game produces troublesome and dangerous symptoms. It is known by mothers that there is a great irritation in the mouth and gome during this process. The game swell, the secretion of the saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting in its sleep, and spasms in peculiar parts; the child shreke with extreme violence, and throats its fingers into its mouth. If these precursary symptoms are not speedily allevated, spasmodic convulsions universally supervents and soon cause the dissolution of the infant. If mothers who have their little babes offlicted with these distressing symptoms, would apply the celebrated American Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatalmalady convulsions.

This infallible remedy has preserved hundreds when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This, preparation is so innocent, so efficacions, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months; though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should never be without the Syrup in the nurser, where there are young children, for if a child wakes in the night with the pain in the gums, the Syrup in the nurser, where there are young children, for if a child wakes unto the interest of the syrup and healing, the gums; thereby prevening Convulsions, Fevers Rec.
